Commander of SAC "Sunday Punch" 15th AF Tells Its History, Training, Potential

(The following article was written by Maj. Gen. Walter C. Sweeney, jr., commander of the Fifteenth Air Force at March AFB, Calif., the "initial striking arm" of the Strategic Air Command. Its history, says the general, gives the Fifteenth "a wealth of experience which, in the business of war, is money in the bank.")

THE Fifteenth Air Force, activated 1 Nov., 1943 was originally designed to test a theory—the newly developed concept of strategic air power. Some pronounced it foolhardy, but from its inception, the command helped to prove the soundness of the idea.

Maj. Gen. Sweeney

Flying from bases in North Africa and Italy, the Fifteenth's men and planes bombarded targets the length and breadth of the Mediterranean Theatre. During the next eighteen months, under the com-

mand of Generals Doolittle and Twining, respectively, they reduced vast enemy industrial plants to rubble, virtually halted oil production in the Nazi empire, and rendered unusable communication facilities throughout the whole of Southern Europe. Strategic bombing had come into its own!

The German war machine destroyed, the outfit was ordered home. V-J Day found the Fifteenth in transitional training from B-17s and Liberators to B-29s in anticipation of Pacific duty. With the surrender of Japan, the organization was de-activated. It was a temporary respite.

Six months later, at Colorado Springs, Colorado, the Fifteenth was revived to become the initial striking arm of the embryonic Strategic Air Command. This time it was to be a global air force, charged with the responsibility of main-

MR. SMITH AND THE FIELD MARSHAL

Navy unhappiness over remarks of Field Marshal Montgomery of England concerning the future role of aircraft carriers came to the fore this week when Assistant Navy Secretary for Air James H. Smith, jr., called a Pentagon news conference to discuss the Viscount's widely publicized remarks.

Because of the impact of Mr. Smith's comments on all the Armed Forces of the U. S. and their relation to the viewpoint of NATO's Deputy Commander his statement is published in its entirety on Page 444.

OMAHA, NEB.—A model of Strategic Air Command's latest heavy bomber, the B-52, is discussed by General Curtis E. LeMay, SAC Commander (left), and Field Marshal Viscount Montgomery, Deputy Supreme Allied Commander in Europe, during the latter's visit to Headquarters Strategic Air Command. Field Marshal Montgomery was on a tour of U. S. military commands and installations. During his stay at Offutt Air Force Base, Neb., he was briefed on the world-wide operations and capabilities of SAC.

Marine G.O. 5 Fears Reported At Ease

Marine Corps fears that the authority of its Commandant would be reduced by a revision of General Order No. 5 have been allayed with release of the document.

General Order No. 5 establishes the relationship between the Chief of Naval Operations and the Commandant of the Marine Corps.

An analysis of the revision, as signed by Navy Secretary Charles S. Thomas, reveals no significant changes. The re-

President Gives State Of Union Preview On Career Attractiveness, Supports Pay Rise

President Eisenhower, voicing support for a military pay increase, has given what appears to be a preview of remarks on "career attractiveness" he will include in the State of the Union Message to Congress next month.

The Chief Executive, in response to a news conference inquiry on 3 Dec. on a subject which, he said, was very close to his heart, said that above all things Servicemen want to be assured that their families are properly cared for while they are doing the jobs to which they are ordered.

In this connection, President Eisenhower said proper medical care for de-

RENEWS PAY COMMENT

Defense Secretary Charles E. Wilson reiterated at his news conference this week that funds for a pay raise are included in military spending estimates for next year.

It was at a news conference the week before that he gave first definite word of Pentagon plans for a pay raise request.

Commenting this week on spending plans, Mr. Wilson observed that an increase in military pay will offset some savings made in other areas.

Congress Will Be Asked To Boost Benefits, Eliminate Tax And Housing Restrictions

Military legislation in the coming Congress will be highlighted by at least 13 bills of major importance to Servicemen and their families.

Four are new measures—headed by a pay boost proposal—which Defense officials will urge the Congress to endorse.

The others include planned amendments to laws already enacted, as well as the re-introduction of a number of bills submitted too late for action by the 83d Congress, or which were delayed pending further study such as the Reserve Forces bill.

All are designed to bolster Service attempts to recruit and retain qualified ca-

reer personnel.

New measures, in addition to the request to increase Service pay, will be drafted to:

- 1—Set up permanent transportation allowances;
- 2—Provide, for the first time, a relocation allowance, and
- 3—Establish permanent integration authority into the Regular establishment.

The House and Senate also will be asked to amend the tax and housing laws, both of which contain restrictions the Defense Department hopes to erase. Additionally, two major revisions will be

(Please turn to Page 331)

DON'T SPOUT THIS!

Mum's the word in the U. S. Navy on a deep study, which has just been reclassified from "restricted-security information" to "confidential."

The new classification has been assigned to Woods Hole Oceanographic Institution Report, Ref. No. 49-42.

Its subject: "Silent Propulsion of Whales."

Army Will Retire 43 General Officers

The Army will retire 43 general officers beginning next month and extending through 1955 under mandatory provisions of law.

This count does not include General Matthew B. Ridgway, USA, Chief of Staff, who may or may not end his active military career next year.

Many other general officers are certain to be retired in 1955 upon voluntary application or for physical reasons.

The parade of retirements will begin in January with the scheduled departure from active service of General William M. Hoge, USA, Commander-in-Chief, U. S. Army Europe.

He is expected to be succeeded by Lt. (Please turn to Page 451)

FIRST HELIPORT

The world's first military heliport has been dedicated at Ft. Eustis, Va. Military and civilian leaders say it holds great promise for the future. (Story, Page 423).

Two Hoover Groups Draft New Reports Covering Military Commissaries And PXs

Service commissaries and PXs, which have been subjected to periodic criticism from industrial groups and Congressional committees, are due for a new appraisal early next year.

A task force of the Hoover Commission on Organization of the Executive Branch of the Government is completing a study of the subsistence services provided by Government agencies (including military commissaries, PXs, bakeries, laundries and dry-cleaning shops) and is expected to report its findings sometime in February.

At the same time, another group of the Hoover Commission has been taking a new look at commissary-PX operations as they relate to Government competition with private enterprise.

This group, the Subcommittee on Business Enterprises in the Department of Defense, is a part of the Hook Committee, which is not expected to complete its report until a later date.

Findings of both groups are being closely guarded until they can be presented to the Commission, inasmuch as the Commissioners can either accept the recommendations, reject them, ask that they be modified, or institute new studies.

Within the Subsistence Services Task Force, the group which is studying commissaries, PXs, laundries, and so forth, is headed by Mr. James McB. Garvey, a WWI Marine Corps captain, who is President of the American Laundry Machinery Co., Cincinnati, Ohio.

Other members of the group are Mr. Ollie E. Jones, Executive Vice President of Swift & Co., Chicago, and 1st Vice

President of the Grocery Manufacturers of America; Mr. John T. McCarthy, Chairman, National Affairs Committee of the American Bakers Association (and WWII member of the Secretary of War's Food Commission); and Mr. Andrew J. Crotty, President of Crotty Bros., Inc. (and one-time Chief Civilian Food Consultant to the Quartermaster General).

The Subcommittee on Business Enterprises in the Department of Defense is headed by Mr. Joseph B. Hall, President of the Kroger grocery chain. Other members are Mr. C. D. Bean, retail merchandising executive, who also is Staff Director of the Subsistence Services Task Force; Mr. Leroy D. Greene, business executive formerly with Bethlehem Steel Co.; Mr. George P. F. Smith, President and General Manager of the Norge Division of the Borg-Warner Corp.; Mr. Frank J. Andress, formerly Management Consultant, Harbridge House, Inc., and now with the Kroger Co., and Mr. Bernard F. Zuccardy (Staff Director), economist formerly with the United States Chamber of Commerce.

The Garvey group began its study of military commissaries and PXs with briefings from Defense officials. After sending out a questionnaire to determine the number and location of the various facilities under study, the group visited a number in principal sections of the United States to make on-the-spot surveys. They also consulted with industrial and business leaders and reviewed most of the Congressional hearings which have been conducted in the field during the past four or five years.

OK Sec's Burgess, Smith; Adm. Withington; Gen's Potter And Holle; And 81 In Air Force

The Senate has confirmed the appointment of Assistant Secretary of Defense Carter Lane Burgess and Assistant Secretary of the Air Force David S. Smith, along with 84 general and flag officer nominations.

Secretary Burgess, Pentagon manpower and personnel chief, received high praise from Senator Price Daniel (D-Tex.), who said "Mr. Burgess is a man of great integrity, of tremendous ability, and with a background of wonderful experience."

Also confirmed was the appointment of RADM Frederic S. Withington, USN, to be Chief of the Navy's Bureau of Ordnance for a term of four years, and Brigadier Generals William E. Potter, CE, USA, and Charles G. Holle, USA, to be members of the Mississippi River Commission.

Air Force confirmations included 30 officers to be promoted to major general and 51 to be brigadier generals. They are:

first Secretary of Defense, will sponsor the attack carrier named in honor of her husband at the Newport News Shipbuilding & Drydock Co., Newport News, Va.

The *Forrestal* will be the longest combatant vessel in the world, measuring 1036 feet. She will be equipped with a canted deck to permit simultaneous take-offs and landings, steam catapults and four deck edge elevators.

In addition, the carrier will have an island acoustically constructed to block out external noise and air conditioned berthing quarters.

Her crew will consist of 466 officers and 3,360 men. She will be capable of carrying about 90 planes and is equipped to fuel both jet and conventional aircraft.

The tentative commissioning date is set for the Fall of 1955.

USAF's F-100 And USN's F4D Win Collier Trophy For Kindelberger And Heinemann

Award of the Collier Trophy for "outstanding achievement in aviation" for 1953 to the executives of two aircraft manufacturing firms in recognition of the development of the first supersonic fighter planes in service was announced this week by T. G. Lanphier, jr., President of National Aeronautic Association.

The official citation reads:

Mr. Kindelberger

"For development of the first supersonic fighter airplanes in service:

"To James H. Kindelberger for the North American Land-Based F-100; to Edward H. Heinemann for the Douglas Carrier-Based F4D."

The awards will be presented by President Eisenhower in a ceremony at The

White House, 12:30 P. M. on 17 December 1954.

Both planes set world's speed records in 1953, which still stand.

Mr. Kindelberger, known as "Dutch" throughout the industry, is Chairman of the Board of North American Aviation, Inc., of Los Angeles, Calif.

Mr. Heinemann is chief engineer of the El Segundo (Calif.) Division, Douglas Aircraft Co., Inc.

The Swept-wing North American F-100 achieved supersonic speed in its first flight on 25 May 1953. On 29 October 1953, Lt. Col. Frank K. Everest, jr., USAF, flew the YF-100A, powered by a Pratt & Whitney J-57 jet engine, to a world's speed record of 755.149 miles per hour over a

15 kilometer course on the east side of the Salton Sea in California. Dubbed the "Super Sabre," the F-100 is the successor to North American's famed F-86 Sabre Jet which chalked up a 14 to 1 kill ratio over the Russian-built MIGs in Korea.

Piloted by Lt. Comdr. James B. Verdin, USN, the delta-wing Douglas XF4D, then powered by a Westinghouse J-40-8 jet engine, on 3 Oct. 1953 flew over a three kilometer course on the Salton Sea at an official speed of 752.943 m. p. h. In the same month, the new airplane also successfully completed its carrier qualification tests. The F4D is the first carrier-type plane to hold an official world's airplane speed record.

Mr. Heinemann

Both speed records were timed by officials of the National Aeronautic Association and both were officially recognized by the Federation Aeronautique Internationale.

Current models of both planes are powered by the Pratt & Whitney Aircraft Division's J-57 turbojet engine for which Leonard S. Hobbs, vice president for engineering, United Aircraft Corp., was awarded the 1952 Collier Trophy.

The Collier Trophy was founded in 1911 by the late Robert J. Collier. The original of the Trophy remains with the National Aeronautic Association, but miniatures will be presented to the winners by the President.

The Committee which voted this year's award was appointed by Mr. Lanphier, President of the National Aeronautic Association. Members of the Committee were:

John R. Allison, President, Air Force Association; Adm. Richard E. Byrd, Miss Jacqueline Cochran, Frederick C. Crawford, Chairman of the Board, Thompson Products Inc.; Gen. James H. Doolittle, Vice President, Shell Oil Company; William R. Enyart, President, Simmonds Aerocessories, Inc.; Charles H. Gartrell, National Association State Aviation Officials; Hon. Carl Hinshaw, Dr. Jerome Hunsaker, Chairman, National Advisory Committee for Aeronautics; Earl D. Johnson, President, Air Transport Association of America; S. Paul Johnston, Director, Institute of the Aeronautical Sciences; Thomas G. Lanphier, jr., President, National Aeronautic Association; Fred B. Lee, Administrator, Civil Aeronautics Administration; Brig. Gen. Charles A. Lindbergh, Vice Adm. Ralph A. Otfie, USN, Deputy Chief of Naval Operations (Air), Department of the Navy; Adm. DeWitt C. Ramsey, USNR, President, Aircraft Industries Association; Robert Ramspeck, President, Aero Club of Washington and Vice President, Eastern Air Lines; C. R. Smith, President, American Airlines, Inc.; Gen. Carl A. Spaatz, USAF (Ret.), Chairman of the Board, Civil Air Patrol; Gen. Nathan F. Twining, USAF, Chief of Staff, United States Air Force; Dr. John F. Victory, Executive Secretary, National Advisory Committee for Aeronautics; LeRoy Whitman, Editor of the ARMY NAVY AIR FORCE JOURNAL, and President, Aviation Writers Association; C. S. Logsdon, secretary, 1954 Collier Trophy Committee.

Sugar Bowl Tickets

Ticket applications for the New Year's Day Sugar Bowl game between Navy and Mississippi are being accepted by the Naval Academy Athletic Association. Applicants should mail or wire requests before 15 Dec. All tickets cost \$6.00 plus 35 cents for postage and insurance.

USMC Board To Name

Captains Next Week

A Marine Corps selection board, authorized to select and reselect 3,557 first lieutenants for captain's rank, is expected to report its deliberations next week.

Headed by Brig. Gen. John C. Munn, USMC, the 14-man board will pick 3454 unrestricted officers, 84 LDO's and 19 SDO's.

Eligibility details were reported in the 4 Sept. and 16 Oct. editions of THE JOURNAL.

Utilities Bill Lightened In Third Army Area

Power, heat and water bills at Third Army installations were reduced \$9.22 per soldier in fiscal year 1954 compared with the previous year, Lt. Gen. A. R. Bolling, USA, Commanding General, has announced.

The reduction was brought about through the activities of the Third Army Utilities Utilization Program.

Launches Forrestal; Crew Not Yet Named

The complement of the *USS Forrestal*, to be launched on Saturday, will not be assigned until the Spring of 1955.

Mrs. James V. Forrestal, widow of the

Senate Ceiling On General, Flag-Officer Ranks Set For Overhaul; More Billets Due

The Senate Armed Services Committee is expected to act next month to raise, or possibly eliminate, the general and flag-officer ceiling which has been imposed on the military since mid-1951.

The ceiling—a gentlemen's agreement entered into by members of the Committee and Defense leaders—temporarily was suspended last week to permit the Air Force to promote 52 officers to new general officer rank. The Navy and Marine Corps already had been permitted to exceed the limits set by the Committee.

Outgoing Chairman Leverett Saltonstall (R-Mass.) said the survey made by Senator John C. Stennis (D-Miss.) which resulted in the establishment of the ceiling is now "out of date." He added that it has been recommended that the new Committee, under the leadership of Senator Richard B. Russell (D-Ga.), "make a resurvey" next month.

Following the action last week, Senator Saltonstall pointed out that the Air Force is being increased by about 30,000 men and that the number of generals permitted under the Committee ceiling is "too low." Although the Air Force now has 22 more generals than the Stennis ceiling permits, he noted, the number still is 23 less than the total which the Air Force is authorized by basic law.

Air Force spokesmen said the newly confirmed generals give the Air Force a total of 409 general officers (nine four-star officers, 20 three-star officers, 146 two-star officers and 234 brigadier generals). Additional promotions during the next six months are planned to bring the Air Force general officer strength to 448 by 30 June. This is 115 more than the Stennis ceiling initially allowed.

When first imposed in 1951, the present ceiling was designed as a stop-gap plan to prevent the promotion of excessive numbers of general and flag officers. At that time the Senate Armed Services Committee asked the Defense Department to develop and present legislation which would set limits on such promotions.

Limitations established by passage of the Arends Act (the Officer Grade Limita-

tions Act) last summer provided a long-range answer to the problem and, for that reason, the Committee is expected to either eliminate the Stennis ceiling or modify it upwards.

Under present planning, the estimated budgeted end strengths for 30 June 1955 for generals and admirals do not equal the ceilings imposed by the Arends Act except in the Air Force.

The Army, by the end of the current fiscal year, plans to have only 450 general officers, although the Arends Act would permit a ceiling of 505.

The Navy will have 290 admirals by the end of next June, compared with 314 authorized by the Officer Grade Limitations Act.

Marine Corps generals will total 60 on 30 June 1955; one less than the ceiling set by the Arends Act.

In the Air Force the planned strength on 30 June 1955 would permit a total of 448 general officers under the Arends Act. This is the number which the Air Force expects to have by that date.

At the time that the House Armed Services Committee reported the Arends bill it noted that the ceilings "while geared to long-range promotion plans, are actually based on requirements. In other words, each service has indicated that its assigned mission, including the multitude of extracurricular activities imposed upon it, completely and fully justifies the number of generals or admirals established as ceilings for each service."

The following figures show the number of general or flag officers which each of the Services now have on active duty; the number initially set by the Committee ceiling; the number planned for 30 June 1955, and the top number authorized by the Officer Grade Limitations Act:

	Now On Duty	Stennis Ceiling	Planned 6/30/55	Arends Act
Army	448	496	450	505
Navy	297	266	290	314
Air Force	409	333	448	448
Marine Corps..	60	52	60	61
	1,214	1,147	1,248	1,328

Navy League Asks "Armed Forces Day" Be Discontinued; Urges Higher Service Pay

The Navy League of the United States last week urged the discontinuance of "Armed Forces Day" and suggested these tributes be turned back to the sponsorship of volunteer service organizations.

Specifically, the League proposed that Navy Day, which it sponsored from 1922, be observed each 27 Oct. with official sanction of the Defense Department.

Official sponsorship of Navy Day was withdrawn by the Pentagon after the inauguration of the first Armed Forces Day, but the League has continued to sponsor the annual tribute to the Navy despite the absence of official Navy cooperation.

Discontinuance of the various "days" honoring the services would result in "substantial budgetary savings," a resolution passed by the League said. The resolution also declared it would be "more appropriate for volunteer organizations to pay tribute to a service than for the services to indulge in self-adulation."

The League, which met in convention 2-4 Dec. in Detroit, also urged Congress to adopt the recommendations contained in the Womble report urging higher pay and increased compensations for certain categories of military personnel.

In another resolution adopted by the NLUS, members advocated "a continued

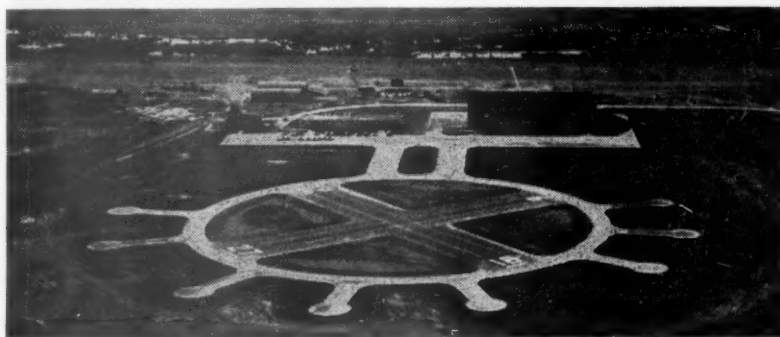

procurement program which will authorize the construction of at least one new heavy fast carrier for each fiscal year."

The League also called upon Congress to appropriate enough funds for the United States to retain its position "as the world's No. 1 sea power and thereby assure our dominance of the sea lanes and insure the availability of raw materials essential to the furthering of our industrial complex."

Carl G. Stockholm, a Commander in the USNR who served in the Pacific during WW II, was elected president of the Navy League at the annual meeting of Directors 3 Dec. Mr. Stockholm, who served as a non-commissioned officer in WW I, was one of the chief sponsors of the U-505 Committee which was instrumental in bringing to Chicago the captured German Submarine U-505 and installing it at the Museum of Science and Industry as a memorial to Navy men who lost their lives at sea. Mr. Stockholm also is a former president of the Ninth Region of the Navy League and President of the Chicago Council.

Other officers elected were: Advisory Council—Alfred C. Castle, Louis Denfeld, Ferdinand Eberstadt, Frank A. Hecht, Dan Kimball, E. V. Richards, Jr., and Irving Seaman; National Vice Presidents—John J. Bergen, Charles Burke, Streuby Drumm, Frank G. Jameson, R. A. Schoenecker, C. Horton Smith and John Sutro; Treasurer—George O. Schweinhaut; Judge Advocate—John Marshall; National Chaplain—RADM. Maurice Sheehy, USNR.

Advertisers in the Army Navy Air Force Journal support the Armed Forces and are familiar with their requirements.

WORLD'S FIRST MILITARY HELIPOINT—Built at cost of more than \$1 million, Felker Helipoint at Ft. Eustis, Va. features a circular taxiway, divided into quarter sections by two 600-foot runways. The runways and eight circular pads around the outer edge are used as takeoff and landing areas. The Helipoint, equipped for night flying, includes a 230x160 foot hangar, a modern glass-enclosed control tower and a large warehouse.

Military-Civilian Air Leaders Hail Helipoint Role In Expansion Of Helicopter Program

The Army has scored an "aviation first" with dedication at Ft. Eustis, Va., of the world's first military helipoint—highlighted by an unprecedented whirleybird demonstration.

Military transportation chiefs and famed civilian aviation leaders, including Mr. Igor Sikorsky, noted helicopter pioneer, predicted that the \$1,128,618.27 project would help blaze new trails in the employment of 'copters by the Armed Forces and civilian air carriers.

Speaking at dedication ceremonies on 7 December before an audience which included such ranking military personalities as General John E. Dahlquist, USA, Chief of Army Field Forces, and General Jacob L. Devers, USA-Ret., who once held that post, Maj. Gen. Paul F. Yount, USA, Chief of Transportation, told of plans for expanded Army use of helicopters.

General Yount said the helipoint will help the Army achieve "more and better combat effectiveness with its helicopters." He said civilian aviation also will benefit from lessons learned in operation of the new facility.

His forecast was endorsed by former Army Under Secretary Earl D. Johnson, now president of the Air Transport Association, Mr. Joseph P. Adams of the Civil Aeronautics Board, and Mr. Sikorsky.

Mr. Johnson, who won his wings in 1931 and who was a WW II Air Force colonel, told the dedication throng, assembled in the new hangar at Eustis, that civilian airlines are worried because of the increasing amount of time required to move passengers from air terminals to downtown areas. He said the helicopter will help solve that problem.

Mr. Adams, a Marine Corps aviation colonel, said the CAB and the Civil Aeronautics Authority are enthused over potentialities of the helipoint.

Declaring that "it is hardly possible to overestimate possible services" of helicopters "which are opening a whole new field of transportation," Mr. Sikorsky outlined plans for helicopters capable of carrying a 6000-pound payload and said "we can and will go way beyond that."

Host for the impressive dedication activities, later livened by presence of the famed Square Dance helicopter team and Bozo, the irrepressible 'copter clown, was Brig. Gen. Rush B. Lincoln, Jr., USA, head of the Transportation Training Command.

Col. William B. Bunker, USA, Commandant of the Transportation School at Eustis and former Assistant to the Chief of Transportation for Army Aviation, assisted General Bunker in the ceremonies.

The helipoint idea is credited originally to Colonel Bunker, who had begun the campaign for its construction not long after the Transportation Corps was given responsibility for helicopter activities in 1949.

The helipoint was dedicated in honor of Warrant Officer Alfred C. Felker, an early Army 'copter pilot who was killed 10 Feb. 1953 in an accident near Winterville, Ga., while on an extended cross-country flight.

A commemorative plaque was unveiled

by his son, Alfred C. Felker, Jr., who is 3. Present were his widow, Mrs. Suzanne Felker Crisman, and his parents, Mr. and Mrs. John C. Felker.

The list of military notables at the dedication ceremony included Lt. Gen. Walter L. Weible, USA, Deputy Chief of Staff, Operation and Administration, and Maj. Gen. Frank A. Helleman, USA-Ret., former Chief of Transportation.

'Copters Cavort, Captivate Crowd

With completion of the unveiling, the dedication show was moved outdoors, where cloudless skies followed a previous night's snowstorm, permitting what was called the world's foremost helicopter show.

As Colonel Bunker described proceedings to the crowd, Maj. Herbert M. Luckfield, USA, Eustis aviation officer, manned the modern control tower to call the aircraft into the helipoint area.

Major Luckfield brought in helicopters which demonstrated evacuation of personnel, wire laying, and the transport of cargo loads.

The helicopters moved onto the helipoint, showed their maneuverability characteristics and then flew off in military precision.

As the show neared its end, the spectators, chilled in the near freezing weather, warmed to the antics of a special team of 'copter pilots from Ft. Sill, Okla.

First came Bozo the Clown, his helicopter bubble face appropriately decorated. Bozo, who is WOJG Eldred G. Bourne, rolled about the helipoint area in his Bell H-13 to hand-warming plaudits.

Mr. "Bozo" Bourne returned to the helipoint area as a member of the famed Square Dance team, which performed in high spirit. Other "dancers" at the 'copter controls were Warrant Officers Harry G. Arden, Jeremiah Foster and Boyce Buckner and 1st Lt. Boyce Buckner. The "caller" was WOJG Arthur R. Tucker.

The Ft. Sill pilots came to Eustis for the ceremonies with Lt. Col. Charles R. Ernest, one of the Army's most well-known pilots, who is Assistant Commandant of the Army Aviation School.

Colonel Ernest is closing out the school's activities at Sill, with headquarters now shifted to Camp Rucker, Ala.

Maj. Gen. Booth To Fill No. 2 Post In Army G-1

Maj. Gen. Donald P. Booth, USA, who has been a division commander in Germany, is scheduled to report to the Pentagon next week.

He will be Deputy Assistant Chief of Staff, G-1, filling a job held until recently by Maj. Gen. Herbert B. Powell, USA, who now commands the 25th Infantry Division in Hawaii.

General Booth will be top assistant to Maj. Gen. Robert N. Young, Army G-1.

U. S. Army

95 Promoted To Temp. Lt. Col. By S. O. 238

A total of 63 Regular Army and 32 Reserve officers were promoted to the temporary grade of lieutenant colonel in Army Special Orders No. 238, dated 6 Dec. The cut-off date was 26 Oct. 1950 (through 157 months). Those promoted were:

(Those marked with an asterisk (*) are Reserves, all others Regulars.)

94th Div. Sets Reunion

The 94th Infantry Division Association will hold its sixth Annual Reunion at the Hotel Bellevue-Stratford, Philadelphia, Pa., 21-24 July. For further information, contact Reunion Chairman, Anthony H. Mirra, Jr., 2810 Springfield Rd., Broomall, Pa.

Army Names 203 Lt. Cols.; Cols. Coming Before Christmas, More Due In 1955

The Army this week released the names of 203 majors promoted to temporary lieutenant colonel—with about 300 more promotions to that rank due this month.

At the same time, it was learned that, barring a last-minute change in plans, more than 200 temporary promotions to colonel will be announced before Christmas.

The promotions to lieutenant colonel, published herewith, carry through a cut-off date of rank of 26 October 1950, the same as the promotions to lieutenant colonel in November. However, the cut-off requirement now is dropped to 153 months of service, as computed for Regular and Reserve officers under provisions

of AR 600-15.

The months of service criterion is employed because of the extraordinarily large number of majors who hold date of rank from 26 October 1950. The Army is avoiding repetition of this problem by spreading promotions over a number of days.

The upcoming promotions to colonel will be the first since retirement of over 400 permanent colonels with over 30 years service and 5 years in grade. Additional promotions to colonel will be made early in 1955.

The promotion pace next year will depend largely on budget decisions as to the grade spread in officer ranks.

S. O. 239 Lists 108 For Lieutenant Col.

Army Special Orders 239, dated 7 Dec., lists the temporary promotion to lieutenant colonel of 108 majors.

One officer advanced, Francis J. Grogan, JAGC, USA, had a 15 November 1954 date of rank, with a cut-off date of 6 April 1949.

Most of the promotions had a 7 December effective date of rank, although 13 carried a 6 December date.

Those with a 6 December date had 157 months of service, while the 94 new lieutenant colonels, with a 7 December date, including 34 Regular and 60 Reserve officers, had a similar 26 October 1950 cut-off date, but with 153 months of service credit.

For Reserve officers, this means total active Federal commissioned service. For Regular officers, the basic date of rank is the determining factor.

Here are the promotions reported in S.O. 239, with Regular officers indicated by an (*).

5,300 INDEPENDENT TELEPHONE COMPANIES

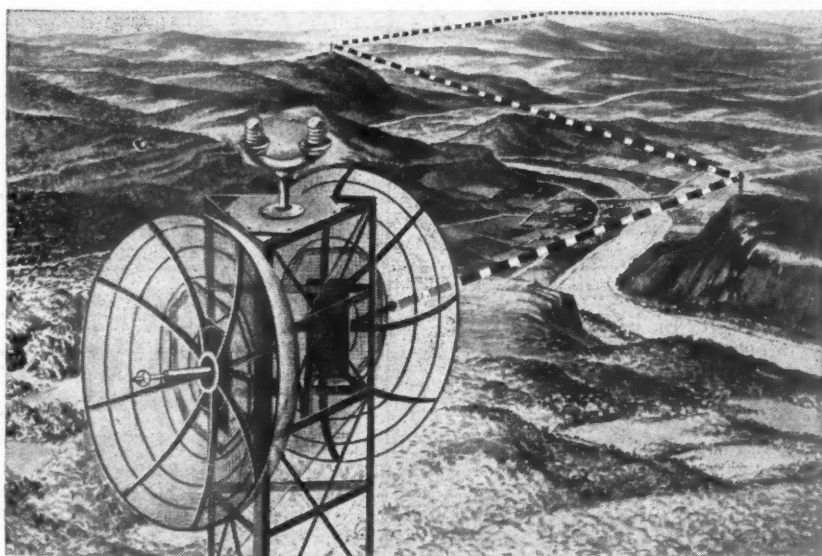

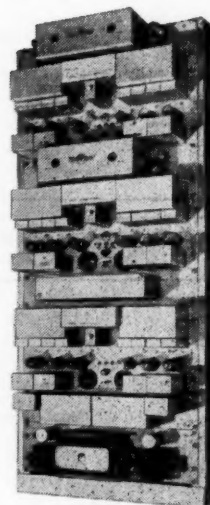

...A GROWING
NATION-WIDE INDUSTRY

...and a growing outlet
for **IT&T** engineering
and manufacturing
facilities.

Typical of advanced design and performance in dial telephone switching systems is Kellogg Crossbar, developed by Kellogg Switchboard and Supply Company, a division of IT&T, for use in telephone exchanges. Together with Kellogg Relaymatic, as well as Step-by-Step and Rotary dial switching equipment made by Federal Telephone and Radio Company, also a division of IT&T, Kellogg provides a complete range of automatic switching systems as well as other equipment and supplies for the independent telephone industry.

Greater capacity for existing telephone lines is made possible by the compact and economical "carrier" system of telephone communications. Carrier can provide as many as 18 additional circuits, superimposed on existing lines without the necessity of stringing more wires. Short, medium and long-range types for voice and for signal transmission are available. With the Kellogg Type No. 5 Carrier, shown at the right, four simultaneous conversations may be carried on one wire circuit.

Microwave radio relay carries telephone circuits over mountains, rivers, deserts, lakes and other difficult terrain *without wire lines*. Between Bartow and Tampa, Fla., the Peninsular Telephone Co. has installed the first independent telephone company microwave link connecting with the nation-wide inter-toll dialing system. The complete equipment was designed by Federal Telecommunication Laboratories, research division of IT&T at Nutley, N. J.

The same skill in manufacturing and research builds better performance into products for home, business and industry made by the manufacturing divisions of IT&T—a great American trademark.

U. S. Navy and U. S. Marine Corps

Five Women Officers

Achieve Top Rank

Three WAVES and two women officers of the Marine Corps have been approved for promotion to the top permanent grade which Service women may hold.

Senate action late last week confirmed the nominations of Commanders Elinor D. Rich, Dorothy I. Council and Katherine E. Shilling for permanent three-stripe rank, and Lieutenant Colonels Barbara J. Bishop and Emma H. Clowers, both USMC, for permanent promotion to their present rank.

The promotions give the WAVES a total of seven full commanders in the Regular Line (including Capt. Louise Wilde, WAVE Director), and the Marine Corps a total of six women lieutenant colonels in the Regular Marine Corps (including Col. Julia Hamblet, Director of the Women Marines).

W-4 Rank Approved

For Twelve Navy WOs

Twelve Navy commissioned warrant officers, W-3, have been confirmed by the Senate for permanent promotion to CWO, W-4. They are:

Dougan, George M.	Myers, John W.
Forkner, Charles A.	Noian, Michael A.
Hatch, Ellsworth K.	Poston, Charles G.
Kerrell, Joseph H.	Sedl, Joseph
Mason, Clyde S., Jr.	Spear, Russell G.
Moran, Franklin D.	Sullivan, John E.

Confirm 10,000 Navy,

USMC Appointments

The Senate has confirmed the nominations of more than 10,000 officers for promotion to the grades of vice admiral through ensign in the Navy and major general through second lieutenant in the Marine Corps.

Navy flag officers included Admiral John E. Gingrich, USN-Ret., to be placed on the retired list in the rank of vice admiral; Vadm Murrey L. Royer, SC, USN, to be chief of Naval Materiel; and RADM Ralph J. Arnold, SC, USN, to be Paymaster General of the Navy and Chief of the Bureau of Supplies and Accounts.

Marine Corps flag officers included seven for the rank of major general and 13 for the rank of brigadier general. All were listed in THE JOURNAL on 3 Dec., page 398.

1200 Navy Officers, Warrant Officers Given New Designators In Changeover

Designators for approximately 1200 Navy officers and warrant officers are being changed by the Bureau of Naval Personnel.

Eight Line officer designators and 14 warrant officer designators are eliminated as the result of an order issued this week. They are:

	Line	
133—	152—	178—
134—	176—	179—
139—	177—	

Warrant

712—	762—	778—
714—	763—	783—
744—	771—	784—
748—	772—	788—
751—	773—	

Officers with these designators are being given new designator numbers. For example, those with designators beginning 152 (AEDO's specializing in aviation electronics engineering) are being provided with new designators beginning 151 (AEDO's specializing in aeronautical engineering).

Although notification of the designator changes was not made by the Navy until this week, the effective date of the officer changes is 22 Nov., and of the warrant officer changes, 1 Nov.

The three designators in the 13 series were eliminated for administrative purposes. (Continued on Next Page)

Marines Concentrate In '54 On Prime Mission Of Improving A-Age Amphibious Landings

FOR the first full year since 1949, the Marine Corps in 1954 was not engaged in a shooting war and was able to intensify development of new tactics and equipment. While two of its three divisions and one of its three aircraft wings remained on the alert in the troubled Far East, the State-side Corps concentrated on improving the performance of its major mission—landing force operations—to meet requirements of the Atomic-Age.

In January, following eight years of research, the Marine Corps removed the wraps from its first true assault helicopter. The giant XHR-2S, resembling a wingless Navy PBV flying boat, is capable of transporting 26 combat-equipped Marines, or three "Mighty Mite" jeeps, or three howitzers directly onto enemy-held territory.

As part of its program to make the helicopter an all-round assault weapon, the Corps released details of a new rocket booster for rotor tips. In addition to increasing the payload by about 20 per cent, the new "ROR" system, which was under study for about two years, also gives better control during glides in case of main engine failure, a greater rate of climb, and an improved hovering ceiling.

Lightweight Dome-Homes

Hand in hand with these developments, the Corps began a study of the practicality of the use of lightweight geodesic domes, which in a fully erected state can be transported at the rate of a mile a minute. A "pilot order" of the revolutionary, lightweight structures, promising a solution to the problem of advanced-base military shelter during combat, can be expected to reach overseas units as early as April 1956, if the project is not checked by budgetary limitations.

Also in line with its program of helicopter development, Marine Aviation, for the first time in its history, began training pilots for the 'copter service only. Prior to 1954, all Marine pilots were also required to qualify in fixed-wing aircraft.

Coupled with the gradual reduction of strength to approximately 220,000 officers and men, to meet the "New Look" structure of the military services, was the re-emergence of the Corps in its traditional role as a 100 per cent volunteer Corps. While a handful of Selective Service personnel are still carried on Marine Corps rolls, they will be released as soon as they are medically qualified to return to civilian life.

The year also saw the return to the old squads right drill system and, for the first time in its history, an official seal was adopted by the Marines. The historic

event took place at a White House ceremony on 22 June, with General Lemuel C. Shepherd, Jr., USMC, Marine Commandant, who assisted in its preparation, as one of the principal witnesses.

On 10 November, the 179th birthday of the Corps, a giant National monument, commemorating the famed flag raising at Iwo Jima, was dedicated to Marine dead of all wars. One of the largest bronze statues ever cast, the memorial weighs more than 100 tons and is more than 70 feet high. It is located on a hill near Arlington National Cemetery overlooking the Nation's capital.

Peacetime maneuvers during the year provided a check on Marine Corps preparedness. One of the largest maneuvers was "LANTFLEX," a month-long Atlantic fleet problem which ended in late November. About 20,000 Marines of the Second Marine Air-Ground Task Force made a successful assault landing on a North Carolina beach through waters heavily "mined" by "enemy forces." Highlighting an earlier phase of the exercise was a cold-weather operation at Hamilton Inlet, Labrador, where Marines were landed in battalion strength.

Maneuvers were also held on Vieques, P. R., on Iwo Jima during the ninth anniversary of the historic assault, and in Western Turkey where the Corps stormed a beach during a NATO exercise designed to test the defenses of Southeastern Europe.

Win Medals of Honor

In sobering ceremonies during 1954, Medals of Honor for heroic action in Korea were presented to the families of four Marines who died for their country. Those honored with the Nation's highest award were S/Sgt. Ambrosio Guillen, Sgts. Jas. E. Johnson and Daniel P. Matthews, and Cpl. Lee Hughes Phillips.

Other events of note were the openings of a Marine Corps exhibit at the Smithsonian Institution, Washington, D. C., and a joint ceremony at Old Ft. Henry, Kingston, Ontario, which marked the 14th anniversary of the Ogdenburg Agreement between the United States and Canada.

Throughout the world Marines were on duty with the various fleets, at U. S. embassies, at Naval, NATO, and UN installations, and on various training exercises.

Nearing the end of 1954, there were about 2,400 Women Marines serving on active duty on posts and stations throughout the States, and at Pearl Harbor, Hawaii, France and Italy.

Marine G.O. 5 Fears Reported At Ease

(Continued from First Page)

cent revision spells out in detail the separate command functions of the Marine Commandant, where the previous order merely inferred his obligations. It is clear that the revised order will prevent misinterpretation or the institution of procedures which might be contrary to the intent of the order.

The previous order, dated 4 June 1954, under the general heading "Duties of the Naval Professional Assistants," states that "The Commandant of the Marine Corps is responsible directly to the Secretary of the Navy and to the Chief of Naval Operations for," among other duties,

"The administration, organization, training, and efficiency of the Marine Corps."

Under the same heading, however, the new order makes a clear distinction regarding the Commandant's areas of responsibility to the Navy Secretary and to the Chief of Naval Operations.

Section 11 of the revised order states that "the Commandant of the Marine Corps is the senior officer of the United States Marine Corps. He commands the Corps and is directly responsible to the Secretary of the Navy for its administration, discipline, internal organization, unit training, requirements, efficiency, and readiness, and for the total performance of the Marine Corps."

The 4 June Order, which outlined the duties of the Commandant, did not clearly define in which areas he was responsible to the Navy Secretary and in which areas he was responsible to the Chief of Naval Operations. The new order makes it clear that when performing the functions noted above, the Commandant "is not part of the permanent command structure of the Chief of Naval Operations." The order

adds that there must be a close "cooperative relationship" between the CNO and the Commandant.

Additionally, the revised order states that the Commandant has a "direct responsibility to the CNO for the readiness and performance of those elements of the operating forces of the Marine Corps assigned to the Operating Forces of the Navy. Such Marine Corps Forces, when so assigned, are under the command of the CNO."

The Commandant's status as a coequal member of the Joint Chiefs of Staff when matters relating to the Marine Corps are under discussion, remains unchanged.

Honor TAC Veterinarian

Lt. Col. John R. Nettles, Jr., USAF, VC, command veterinarian for Tactical Air Command, recently was certified as a specialist in Veterinary Public Health, which is concerned with diseases communicable from animal to man and the inspection of food and food products.

Announcement of the certification has been made by the American Board of Veterinary Public Health, which certifies as specialists only those veterinarians who have had ten years experience in the field, hold a master's degree in Public Health or its equivalent and have successfully completed a technical examination covering all phases of Veterinary Public Health.

He is married to the former Elsie L.

Given New Designators

(Continued from Preceding Page)

poses at the recommendation of the Chief of Naval Operations.

The lone designator in the 15 series was eliminated in accordance with the March 1953 recommendations of the Low Board.

The remaining officer designators (all in the 17 series) were eliminated to facilitate personnel machine accounting procedures, and the warrant officer designators were eliminated in accordance with the recommendations of the January 1954 recommendations of the Grenfell Board.

The Navy said inactive and retired officers whose designator codes are changed by the new plan will be notified of their changed designator as soon as practicable.

Active duty officers and warrant officers who now have one of the old designators are listed in inclosures to BuPers Notice 1210, 22 Nov. 1954, which also shows their new designators.

U. S. Air Force

18th AF Airlifts Prefab Buildings To The Bahamas

TAC's Eighteenth Air Force recently airlifted ten prefabricated buildings from Texas to Eleuthera Island in the British West Indies.

The buildings, each 20 by 48 feet in size, were flown by C-119 Flying Boxcars of the 463d Troop Carrier Wing at Ardmore AFB, Okla. They were complete with plumbing and, when knocked down, displaced about 200 cubic feet and weighed about 10,350 pounds.

The buildings were trucked from the Air Force Aviation Engineer Center at Wolters AFB, Tex., to Hensley Field, Dallas, and then airlifted to the Bahamas. Aviation Engineers from Wolters off-loaded the Troop Carrier aircraft in the Bahamas, and erected the buildings in functional suitability tests conducted by the Wright Air Development Center, O.

Lackland AFB To Have \$75,000 Airmen's Club

The Air Force has approved the construction of a \$75,000 airmen's club at Lackland AFB, Tex., for the approximately 4,200 lower grade enlisted men permanently attached to the base.

Temporary membership probably will be extended to airmen not permanently assigned to Lackland, but basic trainees will not be eligible. When the club is completed, the present NCO club will be used exclusively by the top three graders.

The club, which will be entirely air conditioned, will include a band stand, dance floor, sitting lounge, cocktail lounge, dining room, writing room, reading and check rooms, offices for club personnel, soda bar, storage space, patio with band stand and a parking lot.

Air Force Will Boost Thousands In '55

The Air Force this week prepared for the promotion of thousands of officers to higher temporary and permanent ranks beginning early in 1955.

Headquarters released the selection of 1159 permanent first lieutenants, ranging in temporary rank up to colonel, for permanent advancement to captain. (Names, page 440).

Simultaneously, it was reported that the names of Regular and Reserve first lieutenants and captains selected for higher temporary rank will be announced in January. At that time, the first increment of promotions to this rank also will be released.

In March, the same will be the case for temporary promotions to lieutenant colonel and colonel.

It is anticipated that more than 6000 officers will be promoted to temporary rank of captain, major, lieutenant colonel and colonel during FY '55.

Col. Booth Leaves ARDC For Pentagon Pubinfo Post

After four and a half years as Information Services Officer of the Air Research and Development Command, with headquarters in Baltimore, Md., Col. Leon Booth, USAF, is being reassigned to the National Organizations Branch, Public Information Division, Department of Defense, effective 10 Feb.

Colonel Booth was assigned to ARDC shortly after its activation in 1950 and during that time with the Command has served as Information Services Officer for Lieutenant Generals David M. Schlatter, Earle Partridge, Donald L. Putt, and Thomas S. Power.

Prior to joining ARDC, he was Public Information Officer for the Tactical Air Command at Langley AFB, Va., and the U. S. Air Forces in Europe.

EDITORIAL SUPPORT

The influential Scripps Howard newspapers have given editorial support to a military pay raise.

In an editorial commenting primarily on the Defense Department's new plan for the Reserve Forces, the newspaper chain said:

"The draft law should be extended, of course, for at least the four years Mr. Wilson suggests. And special pay increases for career men and specialists should help the Armed Forces attract and keep the kind of men they need in their permanent categories."

CBS-TV Will Produce AF Documentary Series

A documentary film depicting the history of aviation and the growth of the U. S. Air Force will be produced next Fall by CBS Television in cooperation with the Air Force.

The new series, which will be similar in scope to NBC's "Victory at Sea," will consist of 26 weekly half hour programs entitled "Conquest of the Air." The documentary will be culled from 150 million feet of film gathered from all parts of the world. The Air Force itself will furnish CBS with 100 million feet of film from its own depository at Wright-Patterson AFB, O.

In content, "Conquest of the Air" will range from the first days of flight through the intercontinental strategy of today's Air Force. Each program will be a complete unit within itself, covering one phase of the story of flight, and will be integrated with the basic theme of the series: the clear understanding of this country's role in the air. Technical advisor for the film will be Col. Robert L. Scott, Jr., WW II ace and author of "God is my Co-Pilot."

Average Finance Officer Handles 4,032 Records

The average Air Force finance officer now handles 4,032 military pay records. This is reported in a newly completed survey, which shows that this "average" officer is a captain with date of 15 Feb. 1951. He is a Reserve officer, who is 34 years of age, married and the father of one child.

The average fiscal officer has over 13 years service and has been overseas for 42 months.

He supervises one officer, 14 airmen and 13 civilians.

Low Re-enlistment Rate Hits AF Hard; Express Need For Public Understanding

Air Force re-enlistments are "shockingly low," Brig. Gen. Arno H. Luehman, USAF, disclosed this week.

The Air Force recruiting chief told a meeting of the Aviation Writers Association in Washington, D. C., that objections raised by parents are playing an important part in the difficulties which recruiters are experiencing. Many of these objections, he added, are fallacious.

For example, he noted, the element of danger is over-emphasized. He said civilians, in general, have a poorer safety record than non-flying Air Force personnel.

General Luehman declared that the heart of the Air Force, as far as re-enlistments go, "is far from the healthy, rhythmic organ it should be." He added, too, that there are not enough voluntary enlistments to fill the gaps made by the declining re-enlistment rate.

TOKYO—Capt. George R. Owens (left) and Maj. Carl R. Jossy, Far East Air Forces officers, admire a copy of the citation presented recently to each of them by Zenko-Kai, a Japanese organization which honors residents of Tokyo who have performed outstanding public deeds. This year, for the first time, U. S. armed forces personnel were included in the awards. Major Jossy was honored for services which he rendered to various Japanese organizations, such as the Community Chest and the Boy Scouts of Japan. Captain Owens and his wife won the citation for the assistance they gave to an orphanage in Tokyo.

306th To North Africa

The Strategic Air Command's 306th Bomb Wing will deploy nonstop to North Africa in January for a 45-day period of mobility training exercises.

The 306th, based at MacDill AFB, Fla., will fly direct from Tampa to a USAF base in North Africa, using air refueling by KC-97 tankers.

It is reasonable, he said, to expect about 60 per cent of the men who voluntarily enlist in the Air Force to re-enlist at the end of their first hitch in service. However, he revealed, the present figure is less than 20 per cent.

This means, General Luehman said, that new men will have to be trained "at a dead loss of billions of dollars for each enlistment period." Technical skills, too, are lost in the process, he added.

The cost of training an airman, General Luehman told the Aviation Writers, is about \$15,000 for the first routine four-year enlistment. This may go as high as \$75,000, he added, to train a technician such as an electronic expert, and the cost of training an officer is even higher—as much as \$600,000 for a triple-rated pilot of an atom bomber.

If the Air Force is to achieve its required manpower goals, General Luehman said, it will be necessary for public opinion to be molded on the advisability of having young people enter the Service.

He said the Air Force "desperately needs" the support of the public, but unless the public has more factual information about the Air Force and its problems, public understanding will continue to take the form of passive confidence rather than active support.

The AWA meeting was presided over by the national president of the Association, LeRoy Whitman.

Senate Confirms 41 For Regular USAF

Forty-one officers have been confirmed by the Senate for appointment in the Regular Air Force in the grades of first lieutenant through major. They are:

To Maj (Medical)
Leiter, Eugene R K
White, Fletcher H

To Capt (Medical)
Cerha, Harry T

To Capt (Dental)
Metts, D M, jr

To 1st Lt (Medical)
Anderson, Claude T
Clay, James R
Dinmore, Richard C
Earley, C M, jr
Jacobs, Paul H
Little, Bruce R
Moreno-Salas, E
Peters, Paul C
Poppell, Jay H
Silvernall, W I, jr
Taylor, James P
Ward, Julian E

To 1st Lt (Medical Service)
Allen, George F

To 1st Lt, USAF
Adams, V O, jr
Burt, Stuart E
Harding, F W, III
Levy, Eugene D
Thompson, Edwin E

Bittinger, Dale A
French, Wm A
Hughes, James B
Morton, George J
Wratten, J B, jr

Col. Schofield Assigned To 14th Air Div. Direct.

Col. Martin B. Schofield, chief of the Fifth Strategic Reconnaissance Wing, Travis AFB, Calif., has been assigned to the 14th Air Division directorate to succeed Col. Robert B. Hurley who recently was appointed Director of Operations of the 92d Bomb Wing at Fairchild AFB, Wash.

Col. Earl L. Osborne, who left the Fairchild Director of Operations position a short time ago to replace Colonel Hurley, will now move into Colonel Schofield's spot in the Wing.

New Pepperrell PIO

Maj. John B. Barron, USAF veteran, has been assigned as Information Services Officer at Pepperrell AFB, Newfoundland.

Personnel Officer for the 6th Air Rescue Group at Pepperrell until his new assignment, Major Barron served as Public Information Officer at Mitchel AFB, N. Y., for four years before beginning his current overseas tour in August 1953. He is a graduate of the University of Missouri in Journalism.

Capt. McNamara Heads Sports

Capt. Raymond G. McNamara, USA, has been named Third Army Sports Officer by Lt. Gen. A. R. Bolling, USA, Commanding General. He succeeds Capt. Hu-

bert L. Odom, USA, who moves up to the position of Chief of the Recreation Division of the Third Army Special Services Section.

AF NCO PAY PRIVILEGE

The Air Force shortly will authorize its NCO's, top three-graders, to have their pay checks sent directly to banks or savings institutions for deposit to their accounts—the same as is done for officers.

It's another step in the Air Force campaign to raise NCO prestige.

Those who ask for this procedure must have the entire check sent to the bank. The privilege is an "all or none" proposition.

Col. Forewood Wing C.O., Replaces Col. Johnson

Col. William G. Forewood, USAF, has assumed command of the 61st Troop Carrier Group at Donaldson AFB, S. C., replacing Col. Leland W. Johnson, who will report to Far East Air Forces in January.

Colonel Forewood had been Assistant Deputy Chief of Staff, Materiel, for the 18th Air Force at Donaldson.

The 61st is one of two tactical groups at Donaldson and is assigned to the 63d Troop Carrier Wing. It uses C-124 "Globemasters."

J65 JET 7800 lbs. thrust!

To keep pace with the unrelenting program for all around superiority in America's air defense, the Curtiss-Wright J65 JET engine is now officially rated at 7800 lbs. thrust. This is the latest model of the powerplant which—from the day of introduction—has consistently outperformed its specifications. In service operation, the J65 JET powers a wide range of high-performance aircraft of the U.S. Air Force and the U.S. Navy, including supersonic fighters, attack bombers, and photo reconnaissance planes.

Today, the J65 JET at 7800 lbs. thrust is the choice of the U.S. Navy for its latest carrier-based fighter, the North American FJ-4. Still conservatively rated, the J65 continues to provide the growth capacity to meet the requirements of tomorrow's advanced aircraft.

Pay Looks Up. It now appears virtually certain that some form of pay raise for the Armed Services will receive the full endorsement of the Administration. In this connection, it will be recalled that in his earlier mention of the needs of Service personnel, President Eisenhower had passed over the subject of an increase in pay with the remark that pay was not the only factor in career attractiveness and then had put principal emphasis on the so-called fringe benefits.

However, it is clear from the President's remarks at his press conference last Friday that he is now ready to give direct support to a pay raise and that he most likely will urge it in his State of the Union message to Congress. At the same time, he re-emphasized his backing of medical care for dependents, survivor benefits, and better family housing.

It is also clear that in these matters, at least, the Administration will have the support of the Democrats who will head the House Committee on Armed Services. As THE JOURNAL previously reported, Chairman Carl Vinson (D-Ga.), and Representative Paul Kilday (D-Tex), who will again head the subcommittee on service pay, are preparing to give early and strong support to an upward revision of Service pay scales. Pay raise prospects are looking up.

A New Problem for a New Generation. Brig. Gen. Arno H. Luehman, who, as commander of the 3500th USAF Recruiting Wing, has charge of the Air Force's recruiting program, gave some very sound, and little recognized, facts this week on a problem which concerns all of the Armed Forces. General Luehman told Washington, D. C. members of the Aviation Writers Association that he has found far too many instances where decisions against joining the Air Force are made not by the youth himself but by his parents.

The young man, the General pointed out, becomes interested in the Air Force and talks it over with his mother and father. In many cases, it has been brought out, the parents counsel against enlisting. This advice, he says, is based on a number of different beliefs—none well founded. Some feel that it is too dangerous, whereas the fact is that safety and health records and mortality rates in the Air Force ground components are better than in civilian life. Another factor is the belief that as a member of a military organization the youth will be subjected to bad influence, when figures show that chapel attendance in the Air Force exceeds, percentage-wise, church attendance among civilians, while recreational facilities are available wherever the Air Force is stationed.

Other influences, equally ill-founded, work against the youths' natural inclinations for a military life. As General Luehman so wisely pointed out, the Air Force wants the kind of youth who goes to his parents for advice. The floater and roustabout, without home or church influence, is not the type who makes a good or efficient airman. Thus the problem resolves itself around the parents and guardians and how to educate them in the good the military forces have to offer the young man of today. The fact is that the Army, Navy, Air Force, and Marine Corps have a great deal to offer—a great deal of sound educational value, a real sense of recognition of duty to his fellow man, a discipline which will serve him well wherever he may go, and an understanding of his responsibilities to his nation.

In the world in which we live today service in the Armed Forces is not only an obligation necessitated if we are to carry on our civilization, it is a privilege every youth should be proud to share. The youth of America is as sound as it

ever was—it is the older generation that needs re-education in the needs, responsibilities, and honor of a new generation with new problems.

National Military Power. Both Field Marshal Viscount Montgomery and the U. S. Assistant Secretary of Navy for Air, Mr. James H. Smith, jr., have brought out into the open many vital points which it is well that the public realize and discuss. Because Mr. Smith has been the only American official who has gone into Marshal Montgomery's views in any detail, THE JOURNAL publishes in this issue the approved text of his comments. They are of interest to all concerned in the problem of defense, for they touch on every branch of our Armed Services.

Both Field Marshal Montgomery and Assistant Secretary Smith agree that air power will be the

All That Glitters Is Not Gold

Editor, THE JOURNAL:

I, for one, am a little tired of reading in the various Service publications about what has been done in the past year toward "Restoration" and "Salvage" of "Fringe Benefits" for military personnel. These "accomplishments" had hardly been announced before various commercial interests began raising a hue and cry concerning the sale of milk, gasoline, etc., to service people at reduced prices. Now I read that the commissary stores are again under fire.

Is it not possible to once and for all settle where career military people stand in the economy of these United States? I am beginning to feel somewhat like a person on the relief rolls who is being provided with free food of a nature that is determined by some "do-good" social worker, who, of course, knows what is best for me. It appeared at one time that the Hook Commission had established that military personnel compensation should, in lieu of straight salary, be based on the provision of certain "Fringe Benefits," commissary privileges, dependent medical care, exchange stores, non-contributory retirement, and the like. Has this been accepted in good grace by all? Less than a year ago a civilian neighbor said to me: "You people certainly get a break, having the Navy Exchanges and so on." His

attitude appeared to be that my family and I are living high on the hog at the expense of the "Taxpayer." Personally, I resent such implications whether made by the president of a large corporation or the local grocer.

Service people know all too well the difference between the real and face values of most of our "Fringe Benefits," but the public does not. Therefore, we are constantly on the defensive. Perhaps this is partially the result of describing the advantages of a military career in glowing terms in an effort to attract career personnel. I will cite an instance.

Some years ago legislation was passed which modified the retirement laws to permit officers to retire upon completion of twenty years' active service, at least ten of which must be in commissioned status. This provision is now described as an attractive feature of a military career. I recall that it was hailed, at the time of enactment, as a sort of reward for former enlisted personnel who, during World War II, had creditably performed commissioned officer duties, with only experience (and not training at public expense) for background. This legislation has not yet served the purpose for which it was first intended. Prior to the outbreak of the Korean affair very few officers with former enlisted service had completed ten years' duty in commis-

main striking force of the future. Secretary Smith disagrees, however, with the NATO deputy's forecast that in the future the seas will be controlled from the air and that this control should be exercised by national air forces and not by naval forces and that therefore it would not be wise to build any more expensive aircraft carriers. Mr. Smith agrees with the Marshal, and we are sure Army officials would also, that ground forces should be geared to air mobility. The Navy Assistant Secretary particularly endorses Montgomery's views that there is need for large freight-carrying aircraft to supply the land armies, speed up logistics and cut down inventories. Certainly, the high command of the Army would like to see all of their divisions air-transportable and to have available the aircraft to carry them as well as to resupply them.

One thing is certain, which neither of them touched upon, and that is that no matter what the future may bring there is no national power today that would not like to have at its beck and call the vast striking power and mobility represented in the U. S. Navy's five approved heavy carriers—the first of which, the USS Forrestal, is being launched today at Norfolk, Va.

IN THE JOURNAL

10 Years Ago—It seems generally agreed in Army circles that, if the proposed legislation creating four Generals of the Army is enacted, a number of additional four-star generals will be appointed. Not to make such appointments would result in an Army with twice as many "five-star" generals as "four-star" generals. It is proposed to give the new "super-rank" to Generals Marshall, MacArthur, Arnold and Eisenhower—leaving as four-star generals Craig and Stilwell.

50 Years Ago—RADM. George A. Converse, Chief of the Bureau of Navigation of the Navy Department, has prepared a plan for the formation of a naval reserve of a total strength of 20,000, of whom 600 will be commissioned officers.

90 Years Ago—In spite of the distraction of war, we have gone on increasing in population and material resources, developing new territory and adding new States, until we are now stronger in men and resources than when the war commenced. Our financial affairs are in a hopeful condition. The actual cash operations of the Treasury were—Receipts, \$384,076,646.77; disbursements, \$365,234,087.86; balance in the Treasury, \$18,842,558.71.

sioned status. Next, the retirement privilege was emasculated by an appropriation bill rider. Meanwhile, the Comptroller General ruled that officers whose permanent status was enlisted (temporary commissions) were not eligible under the laws for twenty-year retirement as officers. The 84th Congress has removed the legislative restriction on voluntary retirements. A bill is now being prepared to permit temporary officers the same retirement privileges as those who hold permanent commissions. From all this it can be seen that most officers who desire to take advantage of early retirement for personal reasons (other than so-called hardship cases) have not yet been able to do so. If retirement with less than thirty years' active service is not being granted for administrative reasons, what is its value as a "Fringe Benefit"?

Let this be construed by some as another cry for complete "Security" for the military, let me say that it is not written with that intent. Instead I am trying to point out that "All that glitters is not gold," and that frequent attempts at elimination of "Fringe Benefits" are far greater morale-busters than failure to consider that dollars of military pay are subject to just as much inflation as those of other U. S. citizens.

LCDR., U. S. NAVY

Congress Will Be Asked To Boost Benefits

(Continued from First Page)

undertaken, one involving a number of changes to the Uniform Code of Military Justice and the other an attempt to pull together and rewrite the numerous survivor's benefits laws into a single document.

Topping the "hold-over" bills which will be resubmitted for consideration are the Dependent's Medical Care Bill and the new Reserve Forces plan. Others: pay credit for academy time; 20-year retirement for Army "T" officers; flight training for Army and AF ROTC students.

Taking the legislative proposals (excluding pay) in the order in which they have been presented in this article, here is a synopsis of what each is expected to provide:

Transportation Allowance Due

At present transportation allowances are authorized in each year's appropriations bills. The Defense Department will submit to the Congress draft legislation which will provide permanent authority for the shipment of household goods. The 11,000 pound ceiling now in effect is expected to be retained for junior officers but raised for those in the highest grades. Establishment of permanent allowances would eliminate the practice of legislative curtailment by riders on the appropriations bills.

Will Ask Funds For Dislocations

Another allowance, which the Department will request, is to be furnished Service personnel upon permanent change of station. A draft proposal has been worked out by the Navy on behalf of all three military departments, but details have not been disclosed. In general, however, the plan is designed to return to the Serviceman the various monies which he must pay out-of-pocket in order to move his family to a new location.

Plan To Provide More Regulars

One of the first measures expected to be taken up by the new Congress is a plan to provide permanent authority for the Services to transfer Reserve officers into the Regular ranks. Temporary authority, which has had to be renewed from time to time, now exists, but the military departments were directed by the House Armed Services Committee of the 83d Congress to be prepared to submit plans for a permanent law during the coming year. When approved, the law is expected to swell the Regular ranks by thousands of officers—more than 4,000 of whom will be in the Army.

Defense Will Drive To Amend Tax Law

Congress will be asked to amend a section of the 1954 Internal Revenue Code which excludes retired military personnel under 65 from an income tax credit worth as much as \$240. The credit is accorded all other retired Federal, state and municipal workers, regardless of age, and Defense leaders are expected to make a strong fight to see that the law is changed. Defense Secretary Wilson has said the prohibition against military personnel is "unjustified discrimination" and is "diametrically opposed to the position evinced by the President and strongly supported by the Department of Defense to make more attractive a career in the Armed Forces."

Housing Act Also Requires Change

Another change which will be requested is in the National Housing Act which provides home loan benefits for active duty personnel. When drafted, the plan was designed to give military men and women on active duty a chance to buy a home with Government assistance prior to the time of retirement when they would become eligible for such a loan under the GI Bill. No provision was made, however, for active duty person-

nel who had purchased homes prior to enactment of the housing law. To serve the purpose for which it was designed, the Defense Department believes it must be amended to permit re-financing by those who purchase homes under some other plan.

Revision Expected In Justice Code

A number of changes in the Uniform Code of Military Justice will be presented for Congressional approval. Recommendations will include the return of certain types of non-judicial punishment to the jurisdiction of commanding officers, and a reduction in the number of multiple-member courts.

Overhaul Benefits For Survivors

Survivor's benefits laws are now under study by a special committee of the House of Representatives which is expected to draft a comprehensive bill correcting the numerous inequities. A Defense Department bill, implementing the Kaplan Committee's recommendations, probably will be discarded in favor of the special committee's plan. The latter, however, is expected to make use of many of the recommendations made by the Kaplan group.

Medicare Bill Still Under Study

Plans to provide better medical care for dependents of Service personnel are still pending and will be aired at early hearings. As introduced during the 83d Congress, the legislation would require the Government to meet a substantial part of all costs involved when military dependents are treated by civilian doctors or at civilian facilities. Opposition can be expected from the American Medical Association.

Reserve Program To Be Priority Bill

President Eisenhower will pave the way for a new training program for the Reserve Forces when he presents his State of the Union message to the Congress. The President has said that the measure—which will be designed to strengthen the Reserve components and step up active participation by Reservists—will be a "priority item" in the new Congress. Enactment of the measure is essential to the full implementation of the new Reserve Officers Personnel Act which will become effective next July.

Urge Pay Credit For Academy Time

Thousands of graduates of the U. S. Military, Naval and Coast Guard Academies (both active and retired) will get a pay boost under a plan which would allow credit for time spent at any of the Service Academies (including the new U. S. Air Force Academy). The proposal limits the credit to pay only and does not provide for the crediting of such service toward promotion or retirement.

20-Yr. Retirement For Navy Temp's

Almost 4,000 Navy and Marine Corps temporary officers who hold permanent rank as enlisted men would win 20-year retirement under legislation which will be proposed early next year. The proposal would make all temporary officers, whose permanent status is enlisted, eligible for voluntary retirement after the completion of more than 20 years of active service, at least 10 years of which has been commissioned service. They would be permitted to have the highest rank in which they satisfactorily served when placed on the retired list.

Will Ask Flight Training For Army-AF ROTC

Army and Air Force ROTC students throughout the United States will be given college flight training if Congress approves a Defense Department proposal which will be introduced early in 1955.

COMMENT ON FOREIGN AFFAIRS

THE President's discouragement of talk about possible war measures in the Far East had an encouraging echo in this week's United Nations discussion of the American airmen-prisoners of the Chinese Reds. To the clear discomfiture of the Soviet bloc (Russia's Jacob A. Malik had protested vigorously) there was an overwhelming vote in favor of open debate, rather than reference to committee.

This not only marks full acceptance of the American contention that the maltreatment of our airmen touched their United Nations role, but permits international discussion of Red China's breach of international law and continued violation of the fundamental rights of combatants in uniform. The issue is of course political, and by China's own choice; it involves a common Red technique, which it is most unlikely that either Russia or China wishes to have explored on the international rostrum which the United Nations affords.

IN EUROPE, Russia's self proclaimed passion for peace has led to developments which Moscow hardly expected. The Russian attempt to upset the West's new Nine-Power compact by summoning a general convocation to consider German unification, it will be recalled, met with prompt refusal by Britain, France, West Germany, and the United States to attend the meeting; one reason was that Moscow had allowed insufficient time for preparation. Now, for internal as well as external reasons, both France and Britain have started exploring Moscow's readiness for high-level talks in the spring—after ratification of the Nine-Power pact.

PREMIER MENDES-FRANCE formally instructed the French ambassador in Moscow to ascertain the Soviet attitude toward such a May meeting, in order that preparations for an important gathering of the Big Four could profitably be started without delay—and particularly without waiting for the several western parliaments to ratify the treaty. That is one aspect of the case.

Another, of which the wily French Premier certainly is aware, is that if M. Molotov answers favorably before 20 December, it could have a comforting influence, both on the National Assembly's debate of the Nine-Power pact scheduled to start on that day, and on French minority feelings toward the Premier. Dispatches from Paris, incidentally, remark on the improved feeling toward America which was induced by President Eisenhower's outspoken opposition to warlike action in the Far East.

In London, Sir Anthony Eden is headed in the same direction, for he has asked for an early meeting of the UN Disarmament Subcommittee in the hope that its findings will lead toward the larger project of a meeting of the powers for considering a treaty. He too remarked that once the Nine-Power agreement is ratified there should be an improved prospect of negotiation with Russia.

IN INDO-CHINA, troubles are greater rather than less, with genuinely grave risings of army partisans opposed to Premier Ngo Dinh Diem. They are numerous, and they are armed, and to a considerable degree they are united in a continuing loyalty to the recently dislodged Chief of Staff. American support has been given to the Premier, but the considerable problem of General J. Lawton Collins (who is there in a diplomatic status) is to feel sure that the Premier will assert himself effectively against the openly aggressive actions of an organized opposition.

THE JAPANESE DIET'S unmistakable hostility, which had threatened the calling of a general election, this week led Premier Yoshida to offer his resignation as one means of averting an election which might easily have brought a serious party defeat. The results are not readily predictable in detail, but in-

formed observers anticipate a strong shift in Japan's economic-political behavior. Specifically it is expected that there will be an early move for increased trade with Russia and Red China and for such political relations as this makes necessary.

This is due to economic pressures only, however, and good sense compels us to regard them as ultimately irresistible. Years ago the first of our several post-war economic missions to Japan reminded the incident that Japan could never return to stability until the old-time natural cycle of trade with nearby nations was restored, Japan importing their raw materials and supplying them with finished goods. The 1946 verdict has never been upset; such temporary relief as the American occupation and the Korean war-purchases afforded was of transient value.

ICHIRO HATOYAMA, presumptive successor as premier, in an informal interview has made clear his belief that his country's neighbor-nation trade must be quickened, and full diplomatic relations renewed with Russia as with China, but that this involves no conflict with a continued military alliance with the United States. "Japan survives solely because of that alliance," he is quoted as saying.

The past week has marked the anniversary of 7 December 1941, and many a thoughtful person must have been astonished at the alterations in national thinking which thirteen years have produced. Most astonishing of all, perhaps, is the American realization that something very like the basic idea of that "Asian Co-Prosperity Sphere" of unhappy memory—but this time without its military pressures—is today regarded as essential to an ordered economy in the Far East.

CHANCELLOR ADENAUER'S confidence that Communist pressures have become ineffective in West Berlin was supported by last week's reelections, which provided the Communist party with strength insufficient to provide a single vote in the city parliament. It was a heavy total vote, exceeding 91 per cent and representing the fullest participation since the first post-Hitler elections, but the main strength was that of the Social Democratic party holding a narrow majority, and the principal gain was that of Herr Adenauer's Christian Democrats, rising this time from 24 to 30 per cent, which must be accepted as evidence of the Chancellor's own popularity in that embattled enclave of West Germany.

SAC's newest training order sends the 306th Bomb Wing (Col. Paul S. Emrich commanding) from McDill Field to North Africa next month for a 45-day period of mobile training, using air refueling by KC-97 tankers. It is of interest as showing the rapidity of the training cycles, for the 306th was the first SAC wing to receive the new B-47s, and also the first jet wing to be deployed overseas (in 1953) under the SAC program. On completion of the tour the wing will return to McDill Field.

A LATIN NEIGHBOR, HONDURAS, this week went on a "dictator" basis without a murmur, owing to a constitutional system which requires dissolution of a Congress which fails to elect a president, the popular elections having previously failed to provide a majority vote. As vice-president, Julio Lozano Diaz, was required to assume supreme office, with his newly elected Congress acting as an advisory council but with the President exercising full control of executive, legislative, and judicial functions until a new election (possibly two years away) brings about a normal situation. Don Julio, who was ambassador in Washington twenty years ago, is a well known importer with close American connections and a reputation for ability and industry. On his first day in office he started work at 7 a.m., which is rare anywhere and especially in Honduras.

MEMO For Journal Readers

THE AMERICAN RETAIL FEDERATION, which in past years has used its power on Capitol Hill in repeated efforts—sometimes successful, sometimes not—to curtail or eliminate Service commissaries and post exchanges, will try a new strategy next year. The Federation will bank its hopes on the upcoming influential Hoover Commission reports (see page 422) to do the job.

FEDERATION OFFICIALS are said to be counting heavily on the Hoover Commission's stated objective of cutting down Government competition with private industry. The task force members, it is to be noted, include many men with important retail affiliations. Their reports are anxiously awaited. So is the full Commission's reaction to any proposal to restrict further commissary and PX activities, which have had implied White House and explicit Pentagon approval in recent months.

ANOTHER MAJOR REASON why the A.R.F. may lay low at the Capitol in the 84th Congress is that a number of its members have cautioned against new in-the-open attacks on military personnel and their families. These retailers say that, first of all, it is essential, as pointed out by the President, to raise career attractiveness. Secondly, they are still upset over the reaction to the last campaigns against commissaries and PX's. One prominent department store official said more than 200 charge accounts were cancelled in connection with that fracas.

—2—

CAUTIOUS SELECTIVITY marked the Navy's cooperation with Pentagon newsmen this week in the wake of Asst. Navy Secretary Smith's press conference in which he discussed point-by-point the salt-stinging comments of Field Marshal Montgomery on military tactics and weapons, particularly as regards the future of aircraft carriers. An edited version of Mr. Smith's remarks, including some additional material, was released in mimeographed form.

THE NAVY WAS ASKED also for a text of the brisk "Q&A" session which followed Mr. Smith's calculated commentary. This request was turned down by the Navy. The Defense Dept. Office of Public Information, however, had made a tape recording of the conference and said it would be made available on request.

MR. SMITH'S COMMENT that the USS Forrestal, to be launched 11 Dec., will have only an "incidental" anti-submarine warfare mission, can be counted on to create considerable Air Force interest, particularly at SAC Headquarters.

THE APPARENT FUTURE for the Forrestal ships will be essentially as powerful striking units, whose planes will be ready for what the Navy is likely to call "tactical" missions, but which probably would be labeled "starategic" assignments in the Air Force. The semantics problem undoubtedly will become a hot issue in the years ahead.

ALTHOUGH A YEAR has gone by since its creation was first proposed by the Davies Commission on Army Organization, the Continental Army Command has yet to be activated officially. That should come within the next few weeks, upon completion of the drafting of a formal charter. Its commander will be Gen. John E. Dahlquist, USA, present Chief of Field Forces.

—3—

MARINE CORPS PLEASURE over the revised version of General Order No. 5 is indicated in the absence of protests from Capitol Hill. A number of legislators—Senator Mansfield (D-Mont) was a leader—let it be known in no uncertain terms that they would protests vociferously if the Commandant's authority were reduced. In this case, silence obviously means consent.

THE ARMY'S FIRST "WORK HORSE" CO., equipped with Piasecki H-21 helicopters will be in action at Ft. Bragg, N. C., with start of the new year. The H-21 "Work Horse" has a rated pay load of 1½ tons; future Army 'copter plans call for 3-ton and 5-ton jobs. Ultimate Army need is for 12 battalions of helicopters.

ARMY AVIATION LEADERS, eagerly anticipating the build-up in organic Army air strength, are concerned over lack of large numbers of flying training applications from high-caliber enlisted men, who can win warrant rank, and from junior officers. Improved career chances for W.O.'s, resulting from the Warrant Officer Career Act, will be a big help. This was the prediction of men who should know best—the Army's W.O. 'copter pilots, participating in the heliport dedication 7 Dec. at Ft. Eustis, Va. The Army has 1700 pilots, needs about 500 more.

THE FISCAL '56 BUDGET hasn't been completed yet, but the Air Force has issued an action schedule for '57 funds requests. The budget call will go out from the Pentagon on 14 Jan. for the year beginning in July 1956. Estimates are due before 22 July, except for the Air Materiel Command which gets until 1 August.

—4—

AIR FORCE PAPER WRITERS have been told to keep their reports and recommendations at readable levels. A recent survey showed that 78% of correspondence and documents were written in a style usually found in professional papers, although only 4 out of 10 officers have college degrees. Only 1 out of every 100 airmen is a college graduate.

PRE-ELECTION CONTRACT activity saw the Army obligate about \$300 million during October. The November figure will be about \$85 million. When the Army announced late in October an estimated spending report for that month, newsmen noted that normally such reports took weeks in preparation. There was speculation that such would be the case again. However, the November summary was issued on the 30th.

ELECTRONICS MAINTENANCE in the Army now requires more than 12,000 soldiers who must receive at least 20 weeks' training. Increasing concern is being felt at top Army levels concerning availability of adequate numbers of highly skilled soldiers to operate and repair new weapons, such as the guided missiles Nike, Corporal and Redstone.

ARMY PSYCHOLOGISTS are making a special project of obtaining troop reaction to "Operation Gyroscope," the new division rotation plan. The Army is particularly anxious to find out what effect it will have on reenlistments. Initial indications are that the decision to rotate by units, rather than by individuals, will result in a marked increase in the re-up rate.

DON'T LET RETIREMENT INCOME FADE AWAY...

It can . . . but it won't if part of your current earnings are wisely invested. The reason many people have invested in securities over and above fixed-dollar savings is that in the last 10 years, the purchasing power of the dollar has declined to approximately 52% !!!

You can help combat possible future fluctuations in the purchasing power of the dollar by acquiring dividend paying securities through convenient purchases of Mutual Fund shares . . . out of present earnings.

For several years we have acted as financial counsellors to thousands of civilian, military and naval personnel. We have helped them solve the problem of providing extra retirement income and start on the way to a sound financial future through the regular purchase of Mutual Fund shares. We'd like to help you, too.

Just mail us a postcard with your name and address for our free booklet, "The Modern Way to Invest." We'll include complete, free information on how you can start a plan to help provide you with extra retirement income.

BROWN, MADEIRA & COMPANY

*Could you afford
 to replace
 your valuables
 if you suffered
 a loss by
 fire, theft
 or transportation?*

Members of the Armed Forces because of their frequent changes of station, are constantly adding to their worldly possessions—oftentimes without realizing the total value that has been built up during the years—particularly the replacement value in these inflated times.

Are you protected if you should suffer a loss? You can enjoy protection at low cost—with a USAA Floater policy. This USAA policy gives the insured, his wife, and dependent members of the family insurance protection against fire, theft and transportation on household goods and personal effects.

With a USAA policy, you are protected regardless of the location of the property within the territorial limits of the policy*—in temporary or permanent residence, in government or commercial storage, and during shipment. Quick settlement of claims is made wherever you are—including remote overseas areas.

SAVE MORE THAN 25% WITH USAA, THE SIXTH LARGEST RECIPROCAL INSURANCE COMPANY IN THE UNITED STATES

United Services Automobile Association was organized in 1922 to provide officers and warrant officers—a "preferred risk" group . . . with insurance at cost. The Association is under the direction and management of active and retired officers of the Armed Services. All selling is by mail, so there are no sales commissions to pay, or branch office overhead to meet. The savings thus made are passed on to approximately 225,000 USAA policy holders.

Our new home
 now under
 construction
 Ready early 1956

don't delay-write today!

Write today for application blank and complete information on how you can join over 200,000 other officers who are enjoying USAA insurance at cost.

ELIGIBLE FOR A USAA POLICY?

Eligible for USAA automobile or household effects insurance at cost are: active and retired Officers, Cadets and Warrant Officers of the Army, Air Force, Navy, Marine Corps, Coast Guard, Public Health Service, Coast and Geodetic Survey, Foreign Service Officers of the Department of State; Reserve and National Guard Officers when ordered to extended active Federal duty; the widows of such Officers and Warrant Officers so long as they remain unmarried.

*USAA FLOATER POLICY IS VALID IN THESE AREAS

United States of America, its territories or possessions, Canada, Cuba, Republic of Panama, Continental Europe (excluding the USSR), the British Isles and Eire, Bermuda, Trinidad, the Azores, Iceland, Greenland, the Philippine Islands, Japan, Australia, New Zealand and all other islands located in the Pacific area (except Borneo, Dutch East Indies, New Guinea and those islands under control of USSR or China), and between ports thereof.

AFFC Urges Prompt

Notice of New Address

Prompt notification of changes in mailing addresses by airmen and their dependents who receive allotment checks from the Air Force Finance Center is urged by Maj. Gen. John R. Gilchrist, Director of Finance, USAF, and Commander of the AFFC in Denver. Changes in address are

processed immediately upon receipt, General Gilchrist said.

Airmen wishing to effect changes of address should promptly notify the Allotment Division, Air Force Finance Center. Necessary forms to accomplish this are available from unit personnel officers. Change of address forms are also periodically mailed to allottees with their allotment checks. Letter requests for change of address will also be accepted by the Air Force Finance Center.

SCHOOL AND CAMP DIRECTORY

The Schools and Camps listed below are effectively equipped to care for the educational and recreational needs of the children of members of the services and this Directory is recognized as an authentic and reliable aid to service parents in solving the problem of child education. For details as to the Schools listed in this Directory address them directly or communicate with the Army Navy Air Force Journal Dept. of Education, 1711 Conn. Ave., Washington, D. C.

Walker, Lloyd W, MCSC, Albany, Ga; to Overseas.

Eberhart, John W, Overseas, to MCSC, Albany, Ga.

Schryver, Gilbert D, 2dMarDiv, CamLej; to MCB, CamPen.

Snelling, Edward W, MCS, Quantico; to HQMC.

Popken, Robert E, MCAS, El Toro; to 2MAW, MCAS, CherPt.

McCulloch, William L, MCS, Quantico; to HQMC.

Avuli, Arthur H, MCSC, Barstow, Calif; to Overseas.

Hardwick, Homer A, FMFPacTrps, CamPen; to MCSC, Barstow, Calif.

Frye, Robert A, MCS, Quantico; to NavB, Norfolk.

Fuller, Robert A, 2dMAW, MCAS, CherPt; to NAS, Pensacola.

Hade, Philip R, MCAS, El Toro; to InactvSta Retired List.

Ross, Earl S, HQMC; to InactvSta Retired List.

Schaller, Lewis M, MCAS, El Toro; to Inactv Sta Retired List.

Smith, Jobe F, MCRD, San Diego; to Inactv Sta Retired List.

Trax, William F A, 2dMAW, CherPt; to InactvSta Retired List.

Widman, Frederick J, MCB, CamLej; to InactvSta Retired List.

Whitesel, Thomas, MCB, CamLej; to Inactv Sta Retired List.

Brunton, Ernest K, MCAS, El Toro; to Inactive duty.

1st Lieutenant

Dally, Roger M, ForTrps, 29 Palms; to NTC, Great Lakes.

Gould, John F Jr, ForTrps, 29 Palms; to Overseas.

Miller, Nicholas J Jr, USS Deuel; to NavB, Norfolk.

Bradford, Samuel W Jr, Overseas; to 2dMar Div, CamLej.

Hathorne, James E, Overseas; to 2dMarDiv, CamLej.

Hogsett, James F Jr, Overseas; to MCB, Cam Lej.

Green, Austin H, MCAS, El Toro; to MCAS, CherPt.

Allen, Robert E, 2dMAW, MCAS, CherPt; to Inactive duty.

Adamson, Walter K, Overseas; to Inactive duty.

Colyer, Charles C Jr, NavSuBase, New London; to Inactive duty.

Riggs, Joseph E Jr, Overseas; to 2dMarDiv, CamLej.

Young, John C 3d, MCAS, El Toro; to Overseas.

Moody, Robert R, NAS, CorpC, Texas; to MCAS, El Toro.

Upschulte, Phillip P, NAAS, Kingsville, Tex;

Army Navy Air Force Journal 439

11 December 1954

to MCAS, El Toro.
Stull, George W, NAS, Pensacola; to MCAS, El Toro.

Gordon, George O Jr, 2dMarDiv, CamLej; to USS Nuliphen.

2d Lieutenant

Henry, Clark G, MCB, CamPen; to ForTrps, 29 Palms, Calif.

Ladd, Clayton E, ForTrps, 29 Palms, Calif; to Overseas.

Carroll, Verny Jr, NAS, Pensacola; to MCAS, El Toro, Santa Ana, Calif.

Warfield, Willard W, NAS, Pensacola; to MCAS, El Toro, Santa Ana, Calif.

Robertson, Thomas E, NAS, Pensacola; to 2d MAW, MCAS, CherPt.

Seelye, "H" R, NAS, Pensacola; to 2dMAW, MCAS, CherPt.

Green, Robert C, NAS, Pensacola; to 2dMar Div, CamLej.

McLister, Thomas F, NAS, Pensacola; to 2d MarDiv, CamLej.

Wells, Thomas C, MCS, Quantico; to NAS, Pensacola.

Hughes, Virgil R, NAAS, Kingsville, Tex; to MCAS, El Toro, Santa Ana, Calif.

Lord, Morton E Jr, NAAS, Kingsville, Tex; to MCAS, El Toro, Santa Ana, Calif.

Euler, Edmund R, NAAS, Kingsville, Tex; to MCAS, El Toro, Santa Ana, Calif.

Parsons, Russell O, NAAS, Kingsville, Tex; to 2dMAW, MCAS, CherPt.

Parsons, James R, NAAS, Kingsville, Tex; to 2dMAW, MCAS, CherPt.

Hagen, Charles D, NAAS, Kingsville, Tex; to 2dMAW, MCAS, CherPt.

White, Walter P, MCB, CamLej; to HQMC.

Briggs, Josiah A 4th, MCS, Quantico; to MCAS, El Toro, Santa Ana, Calif.

Treleven, Joseph T, MCS, Quantico; to MCAS, El Toro, Santa Ana, Calif.

Biggs, Michael H, MCS, Quantico; to MCAS, El Toro, Santa Ana, Calif.

Myers, Lloyd R, MCS, Quantico; to MCAS, El Toro, Santa Ana, Calif.

Schoelzel, Charles W, MCS, Quantico; to MCAS, El Toro, Santa Ana, Calif.

Seerley, Robert W, MCS, Quantico; to MCAS, El Toro, Santa Ana, Calif.

Linder, Raymond A, MCS, Quantico; to MCB, CamLej.

Barstow, Paul L, MCS, Quantico; to FMFPac Trps, CamPen.

Calton, Dennis L, MCS, Quantico; to FMFPac Trps, CamPen.

Hanson, Donald A, MCS, Quantico; to FMFPac Trps, CamPen.

Johns, Wilbur E, MCS, Quantico; to FMFPac Trps, CamPen.

Travis, Norman H, MCS, Quantico; to FMFPac Trps, CamPen.

Carlton, James D, MCS, Quantico; to For Trps, CamLej.

Lewis, Robert E Jr, MCS, Quantico; to For Trps, CamLej.

Tierney, Richard H, MCS, Quantico; to For Trps, CamLej.

Delaney, James J 2d, MCS, Quantico; to For Trps, CamLej.

Pfeifer, John A, MCS, Quantico; to ForTrps, CamLej.

Dean, Clyde D, MCS, Quantico; to FMFPac Trps, CamPen.

Ward, Charles, MCS, Quantico; to FMFPac Trps, CamPen.

Erwine, Sheldon, MCS, Quantico; to 2dMAW, MCAS, CherPt.

Grigg, William H, MCS, Quantico; to 2d MAW, MCAS, CherPt.

Kennan, John F, MCS, Quantico; to 2dMAW, MCAS, CherPt.

Kirby, Gerald M, MCS, Quantico; to 2dMAW, MCAS, CherPt.

Charbonneau, Raymond V, ForTrps, CamLej; to MCS, Quantico.

McDonnell, Gerald F E, ForTrps, CamLej; to MCS, Quantico.

Raisinger, Frederick J, ForTrps, CamLej; to MCS, Quantico.

Wood, Harold E Jr, MCS, Quantico; to For Trps, CamLej.

Renfrow, Robert P, MCS, Quantico; to 2d MarDiv, CamLej.

Johnson, Elmer E 3d, MCS, Quantico; to MCAS, CherPt.

Collins, Jeremiah C, MCS, Quantico; to MCRD, Parris Island.

Ahlers, Donald B, MCS, Quantico; to MCB, CamLej.

Goodman, Lawrence G, MCS, Quantico; to HQMC.

Gleason, John L, MCS, Quantico; to 2dMAW, MCAS, CherPt.

Bruce, Alfred D Jr, MCS, Quantico; to 2d MAW, MCAS, CherPt.

Moore, Muri B, MCS, Quantico; to MCB, Cam Pen.

Johnsen, Raymond L, MCS, Quantico; to MCB, CamPen.

Mollin, Charles F, MCS, Quantico; to MCB, CamPen.

Nussbaum, Paul R, MCS, Quantico; to MCB, CamPen.

Jones, Robert C, MCS, Quantico; to ForTrps, CamLej.

Shantz, Thomas A, MCS, Quantico; to For Trps, CamLej.

Suwalsky, Adelbert L Jr, MCS, Quantico; to ForTrps, CamLej.

Only Three Are Passed Over, As 1159 Are Selected For Regular AF Captain

AIR Force special orders next week are expected to announce selection of 1159 permanent lieutenants for permanent promotion to captain in the Regular Air Force. Only three were passed over, all for the first time.

The selections include 1061 on the USAF list, and 27 Medical, 2 Dental, 14 Veterinary, 45 Medical Service, 1 Women's Medical Specialist and 9 Chaplain first lieutenants.

Promotion to higher permanent rank for the 1159 officers, whose present ranks extend from first lieutenant through colonel, will be made upon completion of seven years' promotion list service.

The selectees follow in alphabetical order. The numbers preceding the names are the numerical order of selection:

USAF LIST

Gen. Sweeney Reports On "Sunday Punch"

(Continued from First Page)

taining itself in a constant state of readiness to conduct long-range bombardment missions in any part of the world—a newer, broader concept of strategic air power.

Late in the same year the 8th Air Force was re-activated and then in 1950, the 2d Air Force joined the Strategic Air Command.

First commander of the postwar Fifteenth was Brig. Gen. Charles F. Born (now Major General), who had been a deputy commander of the combat outfit in Italy. He was succeeded 1 May, 1947, by Maj. Gen. Leon W. Johnson (now Lt. General) and in August, 1948, by Major General Emmett (Rosey) O'Donnell, jr., (now Lt. General) a wartime B-29 wing commander in the Pacific who led the first B-29 attack on Tokyo. General O'Donnell remained in command until April, 1953, when he was appointed Air Force Deputy Chief of Staff for Personnel.

Today, Fifteenth Air Force Headquarters is located at March AFB near Riverside, California. Its ten bases are spread throughout the western half of the United States. Its command strength has grown to include ten bomb wings, four strategic reconnaissance wings and one wing of strategic fighters.

With the exception of the intercontinental B-36, the up-to-date Fifteenth Air Force is completely jet-equipped. In the not too far distant future, it is expected that conversion from the ten engine B-36 to its new all-jet counterpart, the spectacular B-52, will begin.

Noteworthy is the fact that this huge expansion and conversion program has been accomplished with minimum impairment of the combat capability of the organization. The Fifteenth has continued to adhere to the policy of being prepared to deliver bombs to targets at any point on the face of the globe on short notice. The attacks would be designed to cause serious damage to enemy offensive air capability and to destroy the vital elements of his war-making capacity.

This briefly is the mission of the Fifteenth Air Force. Its potential as a force for peace is dependent on several factors; its planes, its crews, and its state of preparedness. That these factors are the all-important ones was demonstrated upon the outbreak of communist aggression in Korea.

Eight days after being alerted at their bases in the United States, the 22d, 92d, and 98th Bomb Wings were flying sustained combat missions out of Japan in support of United Nations forces.

With the acquisition of such advanced type aircraft as the B-47, the ability of the Fifteenth to effectively accomplish its mission has improved immeasurably.

The Stratojet has proven to be a remarkably versatile aircraft. It has been tested in arctic and sub-tropical climates and flown almost to the limit of its crew's endurance in protracted test flights. The B-47 is a tough, dependable aircraft that can transport the required bomb load. Maintenance personnel, pilots, and observers in wings converted to the Stratojets are universally enthusiastic about its performance.

The recent non-stop flight from March Air Force Base, California, to Yokota Air Base, Japan, by three B-47s of the 22d Bomb Wing served to underscore again the Stratojet's potential as a long-range, intercontinental bomber capable of delivering nuclear weapons.

Fifteenth Air Force wings have made mass non-stop flights from England to California in 12 hours, and in test missions the B-47 has stayed aloft more than thirty hours through the medium of improved in-flight refueling techniques.

In this connection, it should be pointed out that although the outfit's major striking force is composed of bombers, both mediums (B-47s) and heavies (B-36s), no less essential to its operations are its tankers, reconnaissance, strategic support, and fighter planes. This composite array of aircraft enables the Fifteenth to be more or less tactically self-sufficient.

Each wing is required to perform a tactical deployment at least once a year to an overseas base. Wing combat crews,

staff and support personnel, and aircraft are alternately rotated to the United Kingdom, Africa, and the Far East to maintain the capability of the Strategic Air Command Air Divisions operating there, and to further enhance their own mobility.

Training during these 90-day temporary duty tours is rugged, realistic, and always on a simulated combat basis. This, understandably, imposes a heavy workload on commanders in the field. A great deal of initiative and resourcefulness must be exercised to insure that equipment and personnel are fully utilized in the accomplishment of their task of developing the very finest strategic bombing crews.

The Fifteenth's mobility plan calls for phased movement. Equipment needed immediately is airlifted concurrently, while less critical logistic items are phased in during later periods.

Essential material is kept in an immediate readiness condition. "Fly-away Kits" (aluminum bins mounted on castors) are packed with critical aircraft spare for quick hoisting in bomb bays for movement to forward areas. This is a "must" in accordance with the mobility plan which is designed to enable a unit to sustain itself for a period of thirty days anywhere in the world while conducting a full-scale offensive.

An excellent example of the mobility plan in action was operation "Big Stick" conducted almost a year ago. Fully loaded B-36s of the 92d Bomb Wing flew from their Fifteenth Air Force Base in the State of Washington non-stop to Okinawa and Japan on a major combat training exercise. In addition to the heavies, Far East-stationed medium bombers and reconnaissance aircraft participated in the task force operation. For this first mass flight of B-36s to the Far East, the 92d Bomb Wing was the recipient of the U. S. Air Force's Outstanding Unit Award. The award was made to the 15th AF wing in recognition of its "exceptionally meritorious achievement of great national or international significance, not involving combat operations against an enemy."

The results of exercises of this sort are subject to the most searching kind of evaluations. They may cause training programs to be re-designed and equipment to be modified. Deficiencies at forward bases are noted, analyzed and corrected.

To facilitate deployment of units, the Fifteenth maintains an extensive maneuver schedule. Combat crews are familiarized with geography, equipment, weather and other conditions existing at overseas bases. When take-off time arrives, every eventuality that can be foreseen has been dealt with, as far as humanly possible.

During the long overwater flights to their forward bases, aerial refueling squadrons of the Fifteenth see plenty of action. At pre-planned points, they rendezvous with the high-flying bombers and transfer the thousands of pounds of fuel which permits extended flights and provides an additional measure of safety.

The KC-97, a military version of the Boeing Stratocruiser, has for several years been the major tanker employed

by the Fifteenth. It is capable of carrying tremendous loads of fuel, although not to the very high altitudes most desirable for the refueling of jet aircraft. The crews are highly skilled in their particular specialties and can refuel at night or under adverse weather conditions.

At home, the Fifteenth trains much in the same manner as do its units overseas, with particular attention paid to such matters as radar bomb scoring runs, visual bombing, celestial navigation, aerial gunnery and synthetic trainer, utilization. Annual competitions serve to keep crews on their toes and offer an incentive for outstanding performance.

One of these is the "World Series of Bombing," a SAC-wide contest, which was inaugurated by the Fifteenth Air Force in 1948. In this competition, two crews from every Strategic Air Command bombardment wing compete for honors and awards by carrying out radar and visual bombing runs while flying simulated combat missions. Umpires aboard each bomber monitor crew procedures. Scoring on simulated bomb runs is done by highly objective ground radar bomb scoring teams and on actual bomb releases, by visual triangulation. Separate classes of competition have been established for each category of bomber. A similar competition is held annually for reconnaissance wings.

Besides "sharpening up" combat flight crews, the annual competitions offer a real challenge to maintenance personnel. Thanks to their tireless, around the clock efforts, very few missions are aborted during the week-long events. They are indispensable members of the Strategic bombing and reconnaissance teams.

In all its peacetime operations, economy is a byword in the Fifteenth. Every effort is made to see that equipment is utilized to its fullest capability. A far-reaching incentive program is in effect to make personnel increasingly cost-conscious.

Flying safety is, of course, a paramount consideration at all times. A vigorous safety campaign at all echelons has made the command's accident rate one of the lowest in SAC annals.

Although the Fifteenth Air Force is looking ahead to tomorrow, it can reflect with pride upon almost a decade of successful operation since its re-activation. They have been eventful years which added to an already rich heritage.

There were problems which perplexed, but did not baffle, and there were growing pains with which the command learned to live. During these years, the Fifteenth accumulated a wealth of experience which, in the business of war, is money in the bank.

The aggressor contemplating world conquest would be well-advised to pause and reconsider. The Fifteenth and her sister air forces, the 2d and 8th, have learned well the lessons passed on to them from the hard-fighting outfits of World War II and the Korean conflict. Together they stand ready to demonstrate that in the event of attack, our best defense would be a crushing offense—our "Sunday punch"—delivered by America's mailed fist, the Strategic Air Command.

Gen. Sweeney Returns From Five-Day Trip To U. K., Visits 43d Medium Bomb Wing

A five-day command visit to the United Kingdom was completed 3 Dec. when Maj. Gen. Walter C. Sweeney, jr., USAF, Fifteenth Air Force Commander, and his crew landed their B-47 Stratojet bomber at March AFB, Calif.

Accompanying General Sweeney, who flew as Aircraft Commander, were Maj. W. A. Price, Headquarters Fifteenth Air Force, pilot; Lt. Col. Arnold Sipes, 33d Bomb Squadron, pilot, and Maj. Robert L. Kennedy, 33d Bomb Squadron, navigator.

General Sweeney and crew left the Southern California installation of the Strategic Air Command 28 Nov. and touched down at Fairford, England, just 10 hours later. They flew the 5,740-mile North Atlantic route with a moderate

tailwind at an average speed of 575 miles per hour. The non-stop flights were made possible by aerial refuelings by SAC KC-97 tanker aircraft which made rendezvous with the high-flying B-47 along the route.

Purpose of the trip was a command visit to the 43d Wing, a medium bombardment unit of the Fifteenth Air Force, whose home station is Davis-Monthan AFB, Ariz. The B-47 equipped 43d Wing is presently on temporary duty in the United Kingdom as a part of SAC's continuous training in global mobility.

Elapsed time for the homeward-bound flight was 13 hours and 15 minutes. Headwinds were encountered on the return flight which caused the time to be somewhat slower than the west-to-east flight on Sunday.

SERVICE FAMILY NOTES

MISS ALICE PATRICIA FULLER, daughter of Col. and Mrs. A. L. Fuller, will represent the Officers' Wives' Club of Ft. Bliss as Duchess in the Southwestern Sun Carnival at El Paso, Tex., 26 Dec.-1 Jan.

ADMIRAL Robert B. Carney, Chief of Naval Operations, and Mrs. Carney have returned home after a trip abroad, flying to England from Spain and thence on to Washington. They are preparing to "Keep Christmas" in merry fashion and will have with them their son-in-law and daughter, Capt. and Mrs. Joseph Tausig, jr., and their children, who divide their time between Washington and their new home in Annapolis.

Plans to have their son, Major Carney, jr., and his wife and children with them must be postponed until some time in the New Year, as Major Carney is stationed in the Far East.

Admiral and Mrs. Carney gave a dinner party Thursday evening at Admiral's House for his senior aide, and executive assistant, RAdm. and Mrs. William J. Marshall, the former scheduled to command Destroyer Flotilla No. 1 in Far Eastern waters and leaving Washington the day after Christmas. Mrs. Marshall, while he is away, will take an apartment in New York.

Admiral Marshall's relief, Capt. Thurston Clarke, has arrived from Corpus Christi with Mrs. Clark, and for the time being they are staying at Presidential Gardens until they take over the Marshalls' place at Vienna, Va.

Mrs. Stevens Honored—

Mrs. Robert T. Stevens, wife of the Secretary of the Army, was honor guest of the Army Ordnance Ladies' Association at their December luncheon. Mrs. Earl Gruver, wife of the Deputy Chief of Ordnance, headed the Committee which sponsored this affair.

Assisting Mrs. Gruver with arrangements were Mesdames John G. Shinkle, Frank G. White, Edgar H. Kibler, Francis J. McMorrow, Walter R. Mullane, Hans Jepson, and William J. Durrenberger.

Mrs. Emerson L. Cummings, wife of the Chief of Ordnance, received with the honor guests and Mrs. Gruver.

Big Welcome For AF Wives—

The Air Force Officers' Wives' Club Hospitality Committee under direction of Mrs. Jack C. McClure, jr., Chairman, and Mrs. Carlton J. Martin, Assistant, was busy last week welcoming newcomers to the area with various coffee parties.

The Arlington, Va., area coffee was held at the home of Mrs. Peter R. DeLonga, 931 North Liberty Street, with Mrs. Max Boyer, 5946 N. 10th Road, Arlington, as co-hostess. Mrs. William Daly, 2d Vice President, welcomed the newcomers.

Another party for Fairfax County newcomers was held at the residence of Mrs. Lynn E. Witt, jr., 6106 Clearbrook Drive, Springfield, Va. Mrs. Thos. B. McDonald, 1st Vice President, welcomed the new group.

A third coffee was given at the home of Mrs. James E. Briggs, 3313 P Street, NW, Washington, D. C., with Mrs. Jack C. McClure, jr., as welcoming speaker. Mrs. Oliver S. Picher, program chairman, poured.

Army Engineers Get Together—

Highlight of the winter season for the Corps of Engineers was the gala cocktail buffet at the Officers' Club, Naval Gun Factory, on 4 Dec.

The guest list, headed by Maj. Gen. and Mrs. Samuel D. Sturgis, jr., was a Who's Who of the Corps. Among those from the Washington area were Maj. Gen. and Mrs. Kenneth D. Nichols, with their house guests, Col. and Mrs. Gunnar Carlson, who are en route to Ft. Leonard Wood from Casablanca, North Africa; Maj. Gen. and Mrs. Amos A. Fries, Maj. Gen. and Mrs. Clinton F. Robinson, Maj. Gen. and Mrs. James G. Christiansen, recently returned from Italy; Brig. Gen. and Mrs. David H. Tulley, Brig. Gen. and Mrs. Emerson C. Itschner, Brig. Gen. and Mrs. Gordon E. Textor, Brig. Gen. and Mrs. William A. Carter, Brig. Gen. and Mrs. Theodore M. Osborne, Col. and Mrs. Orville J. Baldwin with their guests, Lt. Col. and Mrs. W. E. Hunt from Ft. Lee, Va., and Lt. Col. and Mrs. Thomas F. Spencer, accompanied by Mrs. Spencer's mother, Mrs. Arthur Fuller from Columbus, Ohio, widow of the late Colonel Fuller. Ft. Belvoir was represented by its new Commanding Officer, Maj. Gen. Louis W. Prentiss, with Mrs. Prentiss, Brig. Gen. and Mrs. Max S. Johnson, and Brig. Gen. and Mrs. Gerald E. Galloway.

After the buffet supper, General and Mrs. Sturgis, together with a sizable contingent of officers and ladies, proceeded to the annual dance sponsored this year by the Engineer Chapter of the D. C. Reserve Officers' Association at the Officers' Club, Bethesda Naval Hospital. Another

Air Force Wives Brighten Wiesbaden With Parties For Orphans And Old Folks

WIESBADEN, GERMANY—Locating a bi-lingual Santa Claus, finding woolly sox and underwear in just the right size, or rushing financial aid to an American family whose apartment has been destroyed by fire, is all in a day's work for Air Force wives in Wiesbaden, Germany, who devote hundreds of hours each year to welfare activities.

Just like at home, Christmas time is especially hectic and rushed—and rewarding.

With the view of making this Christmas a merry one, the Wiesbaden Officers' Wives' Club has arranged for food and clothing to go to several refugee families from Soviet dominated territory. Besides planning a party for more than 70 men and women between the ages of 65 and 88 in an old folks' home, they have repaired, sewn and stuffed more than 400 dolls, hobby horses and other toys, most of which will be given to children in an orphanage that the wives have "Adopted."

The Enlisted Men's Wives' Club of Wiesbaden has planned a Christmas party to include their own children as well as German orphans, so they have been looking for the English-German speaking santa who can ask, "Have you been a good boy?" in both languages. A puppet show, the delight of all German children, will be brought to the party and each of the 161 youngsters will receive candy, refreshments, and a toy. In addition, the 74 German children will be given clothing. Also on the enlisted men's wives' agenda for Christmas is a party and gifts of clothing, soap, and

food for more than 150 old folks in a local home for the aged.

Money for the Officers' Wives' welfare work comes from "The Thrift Shop" a business venture so successful that it puts many professionals to shame. It sells clean usable articles that are brought in by Americans and keeps 10 per cent of the selling price, all of which goes to charity. Volunteer wives total as much as 95 hours work each week pricing, selling, and doing the book work for an average of more than 975 accounts. Clothing is most in demand—winter clothing only—it's generally too cold for summer wear and it doesn't sell.

The officers' wives had some help from Boy Scouts who collected toys from Air Force families, and from patients in the hospital who painted broom sticks for hobby horses and helped repair broken toys. The Air Force patients plan to present the toys to German children at a party in the hospital recreation room with the officers' wives furnishing refreshments and entertainment.

Making a merrier Christmas for the young and the aged, plus planning Christmas for their own families keeps Wiesbaden Air Force wives extra busy. But they know it does far more good than just the quiet satisfaction they get out of helping the needy have a merry Christmas. For, as Miss Margaret Hickey, Public Affairs Editor of the *Ladies Home Journal*, told the November meeting of Wiesbaden Officers' Wives' Club, "The real leadership we must offer the world is in helping other people to do for themselves."

WRIGHT-PATTERSON AFB, OHIO—An Air Force Wives' Quartet, giving a song parody of the ups and downs of an Air Force Wife, at a recent talent scout show presented by the Officers' Wives' Club, included (from left to right) Mesdames F. Masiak, V. D. Hale, B. B. Hall and P. G. Kuldau.

large group continued to the West Point Glee Club Concert at Lisner Auditorium. This included General and Mrs. Galloway with a very special interest. Their son, Gerald E. Galloway, jr., is a member of the famed Glee Club.

Mrs. J. Arthur Hamilton was in charge of welcoming guests and was assisted by Mesdames Andrew V. Inge, Alfred D. Starbird, Salvatore A. Armogida, and Edmund Kirby-Smith, and their husbands.

Reserve and regular officers of the Corps of Engineers will join forces on 11 Dec. when the Military Supply Division, OCE, and Mobilization Reserve Detachment, No. 9, co-sponsor a dinner at Ft. McNair. Lt. Col. J. J. Hawkins, in charge of the arrangements at the Office of the Chief of Engineers, says that the affair is designed to develop friendship and comradeship between engineers on active duty and the engineer reserve officers who will add their strength and skills to the regular establishment in the event of emergency.

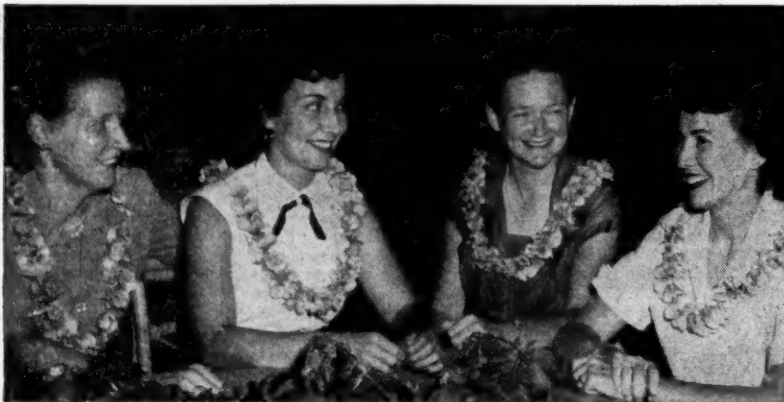

Dinner Dance at Ft. McNair—

The Army Transportation Corps' gala Christmas dinner dance is scheduled for Saturday, 18 Dec., at Ft. McNair Officers' Club. All Transportation Corps officers in the Washington area, retired or on active duty, are invited to make their reservations for the party by calling Mrs. Donald Noake, KE 7-0396.

Service Folk

ELDEN HOBSON DYE, JR., son of Major and Mrs. Dye of the Utah General Depot, was one of 24 students of the University of South Carolina named to the annual edition of "Who's Who Among Students in American Colleges and Universities," announced the Dean of the Faculty, Orin F. Crow. . . **Miss Alice Patricia Fuller**, daughter of Col. and Mrs. Arthur L. Fuller of Ft. Bliss, Tex., has been chosen to represent the Officers' Wives' Club of Ft. Bliss, as Duchess in the Southwestern Sun Carnival, at El Paso, Tex., in late December. . . The members of the 75th RCT Officers' Wives' Club at Ft. Buckner, Okinawa, entertained recently, at a tea honoring Mrs. John D. Lawlor, wife of the new Commanding Officer of the 75th RCT. . . **Col. (USA-Ret.) and Mrs. Mark E. Smith** entertained at a housewarming, recently, at their new apartment at 1441 No. State Parkway, Chicago, Ill., where they will now make their home. Colonel Smith was retired from active duty last August, and is now associated with the Hallcrafters Company, as Administrative Assistant to the President. Their son, Mark 3d, is now a second classman at the U. S. Military Academy, and their daughter, Sandra, is a student at the Francis Parker School.

(Continued on Next Page)

KANEOHE BAY, T. H.—In a decorative setting of leis and Island flowers during the candlelight installation ceremony, new officers of the Staff Non-Commissioned Officers Wives' Club at Marine Corps Air Station, Kaneohe Bay, T. H., are (left to right): Mrs. Michael Brennan, vice-president; Mrs. Milo Stoney, treasurer; Mrs. M. M. Cheslin, secretary, and president-elect, Mrs. John Stark.

Service Family Notes

(Continued from Preceding Page)

Army Finance Officers' Wives' Luncheon—

The Army Finance Officers' Wives' group will meet for luncheon and cards on 16 Dec. at the Army-Navy Country Club. Luncheon will be served at noon. Hostesses will be Mesdames Harry E. Ford, Ralph E. Newcomb, Harvey D. Piper and Lynn O. Rohde. Reservations may be made by calling Mrs. Ford at TEmple 6-5091.

Judge Advocate General's Corps Ladies To Meet—

The Ladies of the Judge Advocate General's Corps of the Army will meet for luncheon at noon, on Thursday 16 Dec. at the Army-Navy Country Club.

A program of Christmas music will be presented by the Madrigal Singers of the Washington and Lee High School of Arlington, Va. Miss Florence Booker, Supervisor of vocal music, is the Director of this talented group of teenagers.

Mrs. Matthew B. Ridgway will be among the guests of honor who will receive with Mrs. Eugene M. Caffey, the wife of The Judge Advocate General of the Army.

Mrs. James E. Godwin, Chairman of the luncheon, will have on her committee Mesdames Howard S. Levie, W. H. H. Jones, John J. D. Kooker, Charles L. Ross, Floyd M. Lundberg and Dean R. Dort.

Navy Supply Corps' Annual Christmas Dance—

The Navy Supply Corps' annual Christmas dance, held at the Army-Navy Country Club, on 10 Dec., proved as popular, colorful and gay as any of its predecessors, the only occasion when the Corps entertains for itself, with a limited number of guests. This year 575 invitations were sent to the "Navy Family."

Receiving with the Chief of the Navy's Bureau of Supplies and Accounts, RAdm. and Mrs. Ralph J. Arnold, were the Chief of Naval Materiel, VAdm. and Mrs. Murrey L. Royer; the Deputy Chief of BuSanda, RAdm. and Mrs. Joel D. Parks; Capt. and Mrs. DeWitt MacKenzie; and Mrs. F. L. Haerlin.

A "winter wonderland" seemed a reality under the skillful hand of Mrs. Ralph M. Humes, the decorating chairman, who achieved the effect with swags and garlands of natural greens, pine cones highlighted with touches of silver and gold balls, with the center of interest a 15 foot Christmas tree uniquely festooned with white dives, sequins and drapes of silk. White candles, silver bows and frosted Christmas greens in the dining room completed the gala holiday motif. At the evening's close, the festive trimmings were divided and sent to the Anderson Hospital, the Junior Village for Children and St. Anne's Infant Asylum, a traditional contribution of the gathering.

Mrs. Haerlin, general chairman of arrangements, was assisted by 11 committee heads, who, in turn, called on assistants. The committee chairmen were, Mrs. L. A. White, hostesses; Mrs. Humes, decorations, assisted by Mrs. R. A. Williams in the ballroom, and Mrs. E. E. Brighton in the dining room; Mrs. Harvey R. Lampshire, publicity; Mrs. G. R. Kinnear, invitations; Mrs. Bert Smith, reservations; Mrs. H. W. Leiser, table reservations; Cdr. Dorothy M. Quinn, SC, USN, name tags; Mrs. D. R. Capell, program; Cdr. and Mrs. R. L. Clark, Jr., refreshments; Mrs. D. C. Ambrose and Mrs. J. K. Webster, door prizes; and Mrs. F. L. Lawrence, dismantling.

Entertain Air Attachés' Wives—

The wives of Air Attachés accredited to the United States were guests of honor at the December meeting of the Bolling Officers Wives Club held in the Capital Room of the Bolling Officers Club.

The formal portion of the program consisted of Christmas music by the Singing Sergeants of the U. S. A. F. Band. This was followed by egg nog and informal entertainment provided by the Strolling Strings.

First Lady Will Be Guest—

Mrs. Dwight D. Eisenhower will be the honor guest of the Ft. Meade, Md., Officers' Wives Club Tuesday, 14 Dec., at the Officers' Open Mess at one-thirty p.m.

Mrs. Eisenhower, accompanied by her secretary, Miss Mary Jane McCaffrey, will be welcomed by Mrs. Floyd Y. Parks, wife of Lt. Gen. Floyd L. Parks, Commanding General of Second Army at her quarters at 1:15 p.m. They will then attend the luncheon meeting which will feature a unit of the U. S. Army Field Band and the Choral Group.

The Program Committee, headed by Mrs. Parks, honorary President of the Club, met 7 Dec. with Mrs. Ralph F. Webb, club social director, to make final arrangements. Other members of the Committee were Mrs. John R. Linden, wife of Lieutenant Colonel Linden, Commanding Officer of the 2053d Personnel Center; Mrs. Irving H. Marshall, wife of Lieutenant Colonel Marshall, assigned to the Medical Section; Mrs. Eugene J. Stann, wife of Colonel Stann, Deputy Engineer, Headquarters Second Army; Mrs. Paul E. LaDue, wife of Colonel LaDue, Engineer, Headquarters Second Army; Mrs. Gustave Gormory, wife of Captain Gormory, Training Section, Headquarters Second Army; Mrs. Gerald D. Shepherd, wife of Colonel Shepherd, Training Section, Headquarters Second Army; Mrs. Eugene E. Miller, wife of Lieutenant Colonel Miller, Chief of Statistical and Accounting Division, Adjutant General's Section, Headquarters Second Army; Mrs. John R. Jeter, wife of Colonel Jeter, Assistant Chief of Staff, Headquarters Second Army; Mrs. Delbert A. Pryor, wife of Colonel Pryor, Inspection Branch, Headquarters, Second Army; Mrs. Carl S. Brandner, wife of Colonel Brandner, Executive Officer, Adjutant General's Section, Headquarters Second Army; and Mrs. William C. Hall, wife of Colonel Hall, Supply and Logistics Section, Headquarters Second Army.

Service Weddings and Engagements

Photo by Glogau

MRS. JAMES ARTHUR MCKENZIE, daughter of Cdr. and Mrs. George Sidney de Shazo, who, before her marriage on 4 Dec. to Lt. (jg) McKenzie, was Miss Diane Elizabeth de Shazo.

MRS. LOUIS R. STOCKSTILL, the former Miss Oneta Lilly, before her recent marriage to Mr. Stockstill, member of THE JOURNAL's editorial staff. Mrs. Stockstill, daughter of Mr. and Mrs. Michael M. Lilly, is secretary to Assistant Secretary of the Army George H. Roderick.

BRIG. GEN. and Mrs. Olaf H. Kyster, Jr., announce the engagement of their daughter, Mary Elizabeth, to Lt. Gilbert T. Scott, USA, son of Maj. Gen. (USA-Ret.) and Mrs. Stanley L. Scott.

Miss Kyster is the granddaughter of Mrs. William M. Cruikshank of Washington, D. C., and the late Brigadier General Cruikshank. She is a graduate of the Holton-Arms School of Washington, and attended the College of William and Mary at Williamsburg, Va. Lieutenant Scott was graduated from the U. S. Military Academy and only recently returned from service in Korea.

The wedding is planned for January.

MCKENZIE-DE SHAZO — Comdr. and Mrs. George Sidney de Shazo announce the marriage of their daughter, Diane Elizabeth, to Lt. (jg) James Arthur McKenzie, on 4 Dec., at the U. S. Navy Chapel, Washington, D. C.

The bride is a graduate of the Holton-Arms School, Washington, and of the University of Pennsylvania. She is a niece of Maj. Gen. Thomas E. de Shazo, USA. Lieutenant McKenzie, son of Mrs. James A. McKenzie of Camden, Ark., and the late Mr. McKenzie, was graduated from the School of Engineering of the University of Arkansas. He is now serving aboard the USS Hugh Purvis.

FERRILL-BEAVERS — Mrs. Harrison Bruce Beavers of Washington, D. C., announces the marriage of her daughter, Virginia Lee, to Col. Jess Peters Ferrill,

jr., USMC, son of Mr. and Mrs. Ferrill of Tampa, Fla.

Dr. Joseph R. Sizoo performed the ceremony, which took place on 27 Nov., at the Georgetown home of the bride's mother.

The bride is the daughter of the late Captain Beavers, USA-Ret.

Colonel Ferrill is attached to the Marine Corps Schools at Quantico, Va.

BADGER-PAARLBERG — Mr. and Mrs. Teunis N. Paarlberg announce the engagement of their daughter, Jeanne Ellen, to Lt. Robert William Badger, USA, son of Brig. Gen. and Mrs. George M. Badger of Washington, D. C.

Miss Paarlberg graduated from Iowa State College last June. Lieutenant Badger is a graduate of the U. S. Military Academy, 1954, and is stationed at Ft. Bliss, El Paso, Tex.

STEVENS-TAYLOR — Miss Ellen Ruffin Taylor, daughter of Chaplain (Lt. Col.) and Mrs. William Franklin Taylor, Jr., was married to 1st Lt. John Rodney Stevens, USA, on 23 Nov., at Wiesbaden, Germany.

The double-ring ceremony was performed by the father of the bride, who is stationed with Office of the Staff Chaplain, Headquarters Air Materiel Forces, Europe. The wedding took place in historic Anglican Church, which serves as the American Church in Wiesbaden.

The bride wore a princess style gown of white French chantilly lace with a short train and bouffant skirt. A fingertip veil of tulle was attached to a white velvet hat encrusted with seed pearls, and she carried white orchids and lilies-of-the-valley.

Miss Ada Lee Taylor, sister of the bride, was the maid of honor, and Mrs. William Schrum was the bridesmaid. The best man was Capt. James Reedy and groomsmen were Capt. Philip A. Foulke, Maj. Louis P. De Stephano, and Lt. Thomas J. Wysocky, all stationed with the bridegroom at Toul, France.

The bride's home was Johnson City, Tenn., where she attended East Tennessee State College. She is a member of Pi Sigma sorority. The bridegroom, son of Mr. and Mrs. John A. Stevens of Charleston, S. C., was a distinguished military graduate of The Citadel, Charleston, in 1951.

Following their wedding trip, Lieutenant and Mrs. Stevens will reside in Toul, where he is presently assigned. They will return to the United States in late January for re-assignment.

Asst. Navy Secretary Smith Opposes Carrier Views Of Field Marshal Montgomery

FOLLOWING is the text of a paper which was used as the basis of comments on Field Marshal Montgomery's speech of 29 Nov., as made by Assistant Secretary of the Navy for Air James H. Smith, jr., at a Pentagon press conference on 6 December:

Plan Submarine Platform for Missiles

1. Field Marshal Montgomery made some very interesting statements of principles and it would be well for us to check the Navy's thinking against these principles. The simplest way to do this is probably to run through the actual text, picking up the points of particular interest to the Navy. The first is his prediction that guided missiles and ballistic rockets are the weapons of the future. From this he concludes that air forces should be larger and navies smaller. This might be true in Great Britain under its form of military organization, but is not true in the United States. The guided missile and the medium range ballistic rocket are both weapons available to the Navy, and as they enter the field we will see the necessity for continued development of the ships from which to fire them. The Navy is already well advanced in this field, and if we were to ask Field Marshal Montgomery if he would be interested in a launching platform for guided missiles which can be moved at a rate of 500 miles a day, which cannot be seen by radar, which can only be detected by the most complicated electronic devices if at all, I think his ears would prick up a bit. Such a launching platform is part of the Navy's planned future arsenal, in the form of the submarine.

Asiatic War Would Increase Navy Role

2. The next item of interest is the paragraph entitled "The Future Global War." It must be carefully noted here that the Field Marshal's subsequent discussions appear to be based solely on an Atlantic war. This has significance because an Atlantic war involves relatively short ranges, whereas an Asiatic war presents totally different problems to the United States and involves substantially greater reliance on naval forces.

3. The Field Marshal then goes on to say that in the first phase of a war it is vital to prevent enemy land forces from overrunning friendly bases. He shows clearly here that he thinks of bases solely as being land bases. He apparently does not appreciate the fact that one of the American Navy's missions is to provide mobile bases at sea from which heavy air attacks of aircraft and missiles can be launched. His concept of land bases undoubtedly results from the fact that Great Britain formerly had available to it throughout the world the necessary land from which to mount a war operation. This was not true of the United States, and therefore we recognize the value of moving bases under the United States flag through the high seas to the point from which we wish to launch an attack, or at which we chose to engage the enemy in a major air battle.

Disputes Montgomery's Division of War

4. The Field Marshal then divides the war into three parts—the war in the air, the war at sea, and the war on land. Right here we should look carefully to see if there is not a mistake. In my opinion, there will be no such division. Full air attack against land targets cannot materialize as long as there is a heavy striking force at sea to be reckoned with. The presence of such a force means the enemy's strength must be divided and part used in an effort to destroy or block the naval air force. This diversion of the enemy's force away from our populated areas will be a factor in our survival.

5. Carrying on with a description of "The War in the Air," the Field Marshal states that the dominant factor will be air power. It might be more accurately stated that the dominant factor is nuclear power delivered by air. If we distinguish between the explosive power of the weapon and the means of delivery it may be easier to understand the problem. Look, for example, at the statement that air power has great flexibility. This is not actually so if one thinks in terms of conventional bombs. The size of the air fleet necessary to conduct a major war with conventional weapons today deprives it of its flexibility. The big bomber itself has great flexibility when airborne, but we must remember that its supporting facilities do not have mobility. Fortunately, this situation is being improved, but at the moment the item which has really given us flexibility is the tremendously increased yield of the nuclear bomb, which permits us to use a small number of small vehicles for delivery. It permits us to achieve mobility through the use of a small carrier-based aircraft such as the A4D with a small but high yield bomb. It opens a field for the jet-powered flying boat relying on little more than a submarine for logistic support.

Drop Direct Air Support of Land Forces

6. Montgomery expresses his concern about the fact that the air forces have lost much of their flexibility because of their requirements of direct support of land forces. This is a matter that can be altered by making a change in the employment of land forces, a field in which Montgomery himself is one of the great experts. He has both the experience and authority to unleash the North Atlantic Treaty air force from the requirements of direct support of land forces. This does not, however, unleash the air forces from the 10,000 feet of concrete runways they now require.

7. Montgomery then states four essentials to the war in the air. The first is the maintenance of the ability to counterattack the moment we are attacked. The carrier striking force today is an important element in this ability, and I believe that Montgomery would recognize this if he knew more about the true function of the carrier as a means of extending the flexibility and range of our aircraft. He states that we must counterattack in a manner to (1) affect the employment of enemy air forces, and (2) to force the enemy to devote considerable of their forces to the attempt to hit our striking forces and bases, and must force the enemy to expend effort on air defense. In each one of these items the carrier striking force plays an important role. The unpredictability of the carrier striking force position makes it essential for the enemy to assign a substantial amount of its air force to the difficult problem of locating and striking this mobile base. In addition, the same mobility makes the enemy build defenses against attacks from any place this mobile force might appear, even though in fact the force never does appear there.

Best Bet for Dispersal Lies at Sea

8. Among the conclusions concerning the war in the air is his recognition of the difficulty of defending heavy bomber bases. He believes that a global early warning system is essential. He does not appear to recognize the fact that mobility provides an element of defense. He accepts the principle of dispersion and states it must be explored from every angle, but he appears to explore it only on land whereas the greatest possibility for dispersal of bases lies at sea. He states "we must get away from the enormous concrete runways of today." This has been recognized by Naval Aviation for years. He states that we must develop the ability to

take off from small makeshift airstrips dispersed over the countryside, but he does not appear to know about the ability to take off from self-sealing water areas such as lakes, lagoons, rivers, bays, etc., with high performance aircraft operating from hydroskis. He states that "vertical lift aircraft have very great possibilities." The United States Navy has successfully flown the first two types of vertical lift aircraft with combat capabilities.

Charges NATO Air Power Deficiencies

9. In his discussion of "The War at Sea" we notice again that he focuses on Europe, the North Atlantic and the Mediterranean. These are relatively small areas compared to the Pacific and Asia, and therefore present relatively simple problems of range, endurance and forward bases. He talks about the fact that navies in narrow seas such as the Mediterranean do not need their own air forces. Yet the organization of which he is Deputy Supreme Commander presents a requirement for the Sixth Fleet with its heavy air attack capability to remain in the Mediterranean. We in the Navy comply with this requirement, but in doing so we realize that the very mobility which Montgomery stresses as being essential is reduced by forcing the fleet to operate in narrow waters in order to be able to strike land targets which apparently cannot be reduced by land-based aircraft of the NATO forces. In my opinion, narrow seas should not need naval striking forces and I only regret that there are not air forces available in Europe which could control the narrow seas such as the Mediterranean and the air above. The reason such air forces have not been developed is because no European power has stressed naval aviation sufficiently. Field Marshal Montgomery may well remember when in the dark days of early 1942 the United States carrier Wasp twice ran the Mediterranean to provide the land base of Malta with air support. In that instance the control of the air over land and sea was exercised by naval air power for the benefit of a land force whose line of communication would otherwise have been cut.

Warship Is Needed As Launching Platform

10. He goes on to state that the day of the large warship on the surface of the sea is over. This is correct if we are thinking in terms of the warship and its 16-inch guns. However, when we consider the warship as the mobile launching platform for a guided or ballistic missile we must recognize that it becomes an essential part of this new weapons system. Whether the hull will be large or small depends on many factors. Among these factors are the size and numbers of new types of weapons required aboard the ship, and the fact that larger ships may often give greater return in effectiveness per dollar invested and per man assigned.

11. Field Marshal Montgomery then discusses who should control the air over the seas. Should it be by "national air forces" or by naval forces? Here he underlines the difference between British and American concepts of military organization. The United States Navy is not restricted to missions which can be carried out by ships. It is assigned specific missions which it is believed it is best suited to carry out. The tools which it uses to execute its missions are left to its discretion and include piloted aircraft, guided missiles, ballistic missiles, seagoing forces, land forces, etc. The question whether the Navy will continue to be assigned its missions depends on how effectively and economically it performs.

12. In discussing defense, he states there is no sure defense and calls for the organization of a scientific task force to study the problem. Such studies are continuously being made in the United States, and I believe they recognize that mobility such as obtained from carriers provides considerable defense against the V-2 type rocket.

Survival of U. S. Depends On Carriers

13. In his next paragraph entitled "The War at Sea" it appears that he would limit naval activity to control of the surface of the sea and of the approaches to essential ports. Here he fails to recognize the necessity for the United States to use the sea as a base, because of (1) the mobility gained therefrom; (2) the fact that this diverts a considerable amount of the enemy's nuclear force away from our own populated regions; and (3) we do not have sovereign control over land where forward bases should be. It seems to me an inescapable conclusion that the survival of the United States depends on our non-cancellable ability to counterattack the enemy from bases closer to his shores than any available on American soil and to engage substantial parts of his air forces there rather than at our coastline.

Agrees On Need for Freight Aircraft

14. Field Marshal Montgomery in discussing problems of logistics points out the need for a vast air organization of large freight carrying aircraft to supply the land armies. Here is an area which could well be given more attention by this country. Without discussing the question whether or not we will need anything "vast" in the next war, it is clear that we must supplement our slow moving pipeline with a relatively fast supply system of cargo carrying aircraft. The resultant economies in inventory will soon pay for the investment and the advantage of being able to fly priority equipment over an opposing submarine force would be tremendous.

Naval Striking Forces Will Divert Attack

15. In closing, Montgomery states absolute defense will be impossible and that the retaliatory capability is a *sine qua non*. Both of these principles are directly in line with Naval thinking and Naval capabilities. He states it is essential to guard against a surprise attack. The unpredictable location and movement of naval striking forces are important means of doing this. He states we must have the ability to absorb atomic and thermo-nuclear attack. I doubt if he could have possibly meant "absorb" in its normal sense. The Navy's position is that dispersed Navy striking forces on the high seas divert attack from our shores and those of our allies, since their counter-attack capability cannot be opposed by the enemy.

U. S. Navy Should Shift Emphasis to Air Arm

16. With regard to balance of forces, he calls for bigger air forces, smaller armies, smaller navies, more emphasis on thermo-nuclear power and more emphasis on civil defense organization. The item of smaller navies is obviously of interest to us, and I do not believe it has the connotation which has been given it by the press, because of the unique difference between the American Navy and all other navies, that is, ours is not limited in its choice of weapons. The conclusion of the address as far as the American Navy is concerned is that there should be greater stress within the Navy itself on air power and other modern weapons. In other words, the combination of the two recommendations, i.e., bigger air forces and smaller navies, means a shift of emphasis to the air side within the Navy.

He is survived by his widow, Mrs Hazel K Walker of 4625 S 34th st, Arlington, Va; one daughter, Mrs L R Roberts of San Diego, Calif; and one son, Cadet John E Walker, Jr, a student at Clemson College. Burial was at Arlington National Cemetery.

Obituaries

Col. William P. Moffet, USA-Ret.

Col. William P. Moffet, USA-Ret., a crusading newspaperman before he entered the Service, died 18 Nov. in St. Paul, Minn., at the age of 88.

Owner and publisher of "The Settler" in Bismarck, N. D., he entered military service in 1898, leading the 1st North Dakota Volunteers. A rival newspaper said: "Moffett Goes into the Army to Have Peace," a reference to the fact that he had been shot once on his way home from the office and had seen his printing press dumped into the Missouri River.

Colonel Moffet won the Silver Star in 1916 with General Pershing's forces on the Mexican border.

He was retired in 1930.

Mrs. Moffet died in 1950. Five children survive: Mrs. Bruce Jarvis of New York, Mrs. John Huling, Jr, of Chicago, Mr. Wm. T. Moffet of Rochester, Minn., Miss Lula Moffet and Mr. E. B. Moffet of St. Paul. One of the eight grandchildren, Lt. John W. Huling, USA, also awarded the Silver Star, was killed in action in Germany.

Col. John Emmett Walker, sr., USA

Funeral services for Col. John Emmett Walker, sr., USA, who died suddenly of a heart attack on 5 Dec., at the Ft. Belvoir, Va., hospital, were held 8 Dec., at the Ft. Myer, Va. Chapel, followed by burial at Arlington National Cemetery.

A native of Blackville, S. C., Colonel Walker was an honor graduate of Clemson College, in the class of 1926. His more than 28 years service in the Army included graduation from the Infantry and Tank Schools at Ft. Benning, Ga., the Command and General Staff College and the Naval War College. He saw duty in Panama and Alaska before WWII, and during the war, held commands in the Third Infantry Division, and served in Newfoundland, Europe and the China-Burma-India theaters. Before his assignment to the Joint Chiefs of Staff, Washington, in April 1953, Colonel Walker commanded the Hanau Sub-Post in Germany.

His survivors include his widow, Mrs. Hazel K. Walker of 4625 S. 34th St., Arlington, Va.; one daughter, Mrs. L. R. Roberts of San Diego, Calif.; one son, J. E. Walker, Jr., now a cadet at Clemson College; and two sisters, Mesdames Carl Shaw and Cecil Thompson, both of Atlanta, Ga.

Honorary pallbearers included Brig. Gen. Stanhope B. Mason, USA, Colonels A. J. Thackston, Jr., USA, Richard J. Franz, USAF, Ralph Devine, USA, Capt. John C. S. McKillip, USN, Lt. Col. C. W. Florance, USA, Maj. Howard McGrath, USA, and Capt. John C. Hardee, USA.

Weddings and Engagements

(Continued from Page 443)

JOHNSON-WALLACE — Miss Nona Shirley Wallace, daughter of Mr. and Mrs. Colonel Wallace, 39 Hill St., Portsmouth, N. H., became the bride of 2d Lt. Todd Wallace Johnson, USA, son of Mr. Robert H. Johnson, Willow Road, Northbrook, Ill., on 27 Nov., at the historic Chapel of the Centurion, Ft. Monroe, Va. Post Chaplain (Maj.) Harmon D. Moore performed the double ring ceremony.

The bride, who was given in marriage by her father, was attended by her mother. The groom's only attendant was his brother, Mr. Robert H. Johnson, Jr., of Northbrook.

Officers serving as ushers and crossing sabres for the bridal pair's exit were 1st Lts. Walter J. Ford, Robert M. Louderback and Alan P. Rose and 2d Lts. Dalex J. LeBlanc, William R. Clinard, Ronald Fazekas, Herman L. Moekle, John M. Lee, William R. Edwards, Vincent E. Walsh, Charles E. Marthinsen, Ronald S. Culp, Matthew F. Cassidy and Raymond E. Alt-house.

The bride was a student at Pembroke College, Brown University, prior to her marriage to Lieutenant Johnson. The groom, who is assigned as secretary of the Officers Casemate Club, attended Northwestern University, Chicago, for four years and later studied hotel administration at Cornell University where he received a B. S. Degree in Hotel Administration.

Prior to his call to active duty last June, he was employed by the Sheraton Corporation of America. He is a member of Phi Delta Theta Fraternity and of Ye Hosts Honorary Hotel Society.

ISLEY-WOODWARD — The Old Post Chapel at Ft. Sill, Okla., on 27 Nov., was the scene of the marriage of Miss Frances Elizabeth Woodward and Lt. Carl Walter Isley, USAF, of Ft. Sill. The bride is the daughter of Mr. and Mrs. William Carleton Woodward of Watkins Glen, N. Y., and Lieutenant Isley is the son of Lt. Col. (Ret.) and Mrs. Carl James Isley, also of Watkins Glen.

Given in marriage by her father, the bride wore a waltz-length gown of white silk chiffon velvet, designed with a portrait neckline and appliqued with Alencon lace. Her illusion fingertip veil was held by a cap of matching lace, and she carried white gardenias and stephanotis.

Mrs. John N. Huhn of Lawton, Okla., was the matron of honor, and Lieutenant Huhn served as best man. Ushering were Cadet Alfred C. Woodward, brother of the bride, and Lt. James Gilligan.

Mrs. Isley was graduated from the Rochester Business Institute, and the bridegroom attended St. Bonaventure University.

Following a wedding trip, Lieutenant Isley and his bride will make their home in Lawton, Okla.

McCOY-McKEE — Comdr. Frederick William Witt and Mrs. Witt of Washington, D. C. and Portugese Bend, Calif., announce the engagement and the approaching marriage of the niece of Mrs. Witt, Miss Louise Dau McKee and Lt. (jg) Roy Edgar McCoy, USN, stationed at Newport, R. I.

Miss McKee is the daughter of the late Mr. and Mrs. Daniel McKee. She has many friends in Washington, and in Portugese Bend. She was graduated from the Mary Wheeler School for Girls in Providence, R. I., and later studied Art in New York, where she now maintains an apartment overlooking the East River. The McKee family is a Colonial family, many of whom, including the ancestors of Miss McKee, fought in the Revolutionary War. Her mother's family is a pioneer Texas family. The ships of this family brought many of the earliest settlers to Texas. During World War II a liberty ship was named for Miss McKee's grandfather, Capt. Frederick Leohart Dau, at Houston, Tex.

Lieutenant McCoy is the son of Mr. and Mrs. Walter McCoy. Comdr. Ralph McCoy, a brother, stationed in Washington, D. C., with his family, makes his home at Layton Farm, Fairfax Court-house, Va.

The wedding will take place 28 Dec., and the ceremony will be held in the famous Wayfarers' Chapel in Portugese

Weddings and Engagements

(Continued from Preceding Page)

Bend. Both site and edifice presented to the community by Mrs. Frank Vanderlip, sr. The chapel was designed by Frank Wright, son of Frank Floyd Wright and dedicated to Emanuel Swedenborg.

Comdr. and Mrs. Witt left Washington 10 Dec. for California to make arrangements for the wedding.

IMLAY-TWEEDT — Mrs. Bernice Tweedt of Pacific Grove, Calif., was married to Col. Talma W. Imlay, USAF-Ret., of Salinas, Calif., on 24 Nov., at Reno, Nev. The bride is the daughter of Mrs. William Wallace Blair of Piedmont, Calif. Colonel and Mrs. Imlay, following a wedding trip, will occupy a new home they have purchased, near the Monterey (Calif.) Peninsular Country Club.

HALPIN-BIRD — Miss Alice Eileen Bird, daughter of Maj. and Mrs. Edward E. Bird of Glen Burnie, Md., was married on 20 Nov. at the Ft. Meade, Md., Chapel to Capt. George E. Halpin, jr., son of Mr. and Mrs. Halpin of Birmingham, Mich. Captain Halpin's present duty is with the Ordnance Section at Ft. Eustis, Va. Father George T. Casey, Post Chaplain, celebrated the Nuptial Mass.

The bride wore a full length white satin and lace gown with a queen's collar and her finger-tip veil of illusion was attached to a tiara of seed pearls. She carried a Prayer Book with a white orchid.

Miss Virginia Chard, daughter of Col. and Mrs. Robert H. Chard, acted as maid of honor. Participating as bridesmaids were the Misses Patricia Halpin and Dianna Halpin, sisters of the bridegroom, and Alice Shaefer.

Mr. Donald Halpin, brother of the groom, was best man, with Mr. Edward Bird and 1st Lt. Harvey Shaefer as groomsmen.

REED-KREMER — Mrs. Suzanne Long Kremer, daughter of Mr. and Mrs. Alfred Thomas Long, of Milford, Pa., was married on 8 Dec., in the Old Cadet Chapel at West Point, N. Y., to Capt. John Charles Reed, USAF, son of Dr. and Mrs. Jay L. Reed, of New Castle, Pa. The Rev. Mr. Alan Gripe, Assistant Protestant Chaplain at the U. S. Military Academy, officiated at the ceremony, which was followed by a reception at Cullem Hall, at West Point.

The bride, who was given in marriage by her father, wore a ballerina length gown of ice-blue lace, a matching cap, and she carried an heirloom lace bag with lilies-of-the-valley. Mrs. Edwin J. Barry, of Oak Park, Ill., was matron of

honor, and the bride's niece, Karen Long, was flower girl. John Finnessey, nephew of the groom, was ring bearer. Capt. John W. Armstrong, USAF, now stationed at West Point, was best man. The ushers were Col. Julian J. Ewell, USA, Capt. Herbert L. Hoot, USA, and Thomas F. Long, brother of the bride.

Mrs. Reed is the widow of Capt. Frederick S. Kremer, USA, who lost his life in 1944 in the Battle of the Bulge. Mrs. Reed was graduated from Abbott Academy, in Andover, Mass., and attended Edgewood Park Junior College, Briarcliff Manor, N. Y., and the Neighborhood Playhouse School of the Theatre in New York City.

Captain Reed attended the Braden School, Cornwall, N. Y., and Lafayette College, Easton, Pa., and graduated in 1949 from the U. S. Military Academy, where he is now assigned to the Department of Tactics. Captain Reed flew 52 missions over North Korea and was twice awarded the Distinguished Flying Cross and the Bronze Star. He also had a tour of duty as aide-de-camp to the Far East Air Force Commander General O. P. Weyland, USAF.

Following a trip to Nassau and Jamaica, Captain and Mrs. Reed will make their home at West Point.

ECKBLOM-MIDDLEBROOKS — Mrs. Emma Fox Middlebrooks announces the marriage of her daughter, Suzanne, to Mr. Frank Ralph Eckblom of Miami, Fla., and Charlotte Amalie, St. Thomas, Virgin Islands, on 27 Nov. in Charlotte Amalie. The wedding ceremony took place in All Saints Episcopal Church, with the Reverend E. L. Malone officiating.

The bride was given in marriage by Mr. Gerald A. Cooper; her attendant was Miss Eleanor Stiles and Mr. Hill Eller was the best man.

The young couple spent their honeymoon in San Juan, P. R., and will make their home in Charlotte Amalie.

Mrs. Eckblom attended Stephens College in Columbia, Mo., and is a graduate of George Washington University, Washington, D. C. She is a member of Kappa Kappa Gamma Sorority. Her father, Col. Richard R. Middlebrooks, a 1928 graduate of the U. S. Military Academy, is stationed in Raleigh, N. C., where he is Professor of Military Science and Tactics at North Carolina State College. She is the granddaughter of Mr. Oscar J. Fox, well known Texas composer of The Hills of Home.

Mr. Eckblom served in the U. S. Navy both during World War II and in Korea. He attended the University of Miami.

MUNICH, GERMANY—Ladies of the Munich Sub-area honored Mrs. Numa A. Watson, wife of the Commanding General, Southern Area Command, at a tea, given by Mrs. William J. Murray, wife of the Commanding Officer, Munich Sub-area, recently. Seen here (left to right) are: Mrs. Charles E. Wilson, Mrs. James A. Scott, Mrs. William J. Murray, Mrs. Numa A. Watson and Mrs. George O. Pearson.

After mounting the stem base on a small block of wood, she decorates the tree with jewelry. As a table centerpiece, many Ft. McPherson wives are grouping these festive trees with varied-shaped candles made of melted paraffin wax from jelly jars.

344 Blood Donors

■ **BROOKLEY AFB, ALA.** The spirit of Thanksgiving and the desire to share with others surged strong in the hearts of 429 Brookley civilian and military blood donors. From 8:00 A.M. to 2:00 P.M. Thanksgiving Eve, the Alrmen's Service Club facilities were used to care for the hundreds of volunteers who came to pour pints of precious, much-needed, blood into the Mobile Red Cross Blood Bank.

Of the 429 Brookley volunteers that reported, 344 qualified and each contributed a pint of blood. This figure of 344 pints of

blood donated in the November Bloodmobile Operation does not include night shift volunteers who were scheduled to report direct to the Red Cross Blood Center to make their contributions.

\$500 For Christmas Seals

■ **WILLIAM BEAUMONT AH, TEX.** Lt. Col. J. A. Dalley, Deputy Post Commander, recently gave a Christmas Seal contribution of \$500.00 to Mrs. Gertrude Gardner, Executive Secretary of the El Paso Tuberculosis Association.

Mrs. Robbins Gives Reading

■ **FITZSIMONS AH, DENVER.** A reading of Charles Tazewell's "The Story of the Littlest Angel" was given by Mrs. Thomas Robbins at the 7 Dec. meeting of the Om-

FOR YOUR FRIENDS IN THE ARMED FORCES!

Racking your brains for a PERSONAL Christmas gift? There is a grand solution: 52 issues of the ARMY NAVY AIR FORCE JOURNAL!

A subscription to the ARMY NAVY AIR FORCE JOURNAL for husband, brother or sweetheart means that each week during the coming year your Christmas thought will be refreshed in the mind of the recipient. It will be appreciated by the soldier, the sailor or the airman and by members of his family.

Because, in the weekly ARMY NAVY AIR FORCE JOURNAL there will be found all the news so vital to their welfare.

Because, all Executive and Congressional acts will be reported in its columns.

Because of its publication of official circulars and reports and matters of service interest.

Because of its discussion of foreign relations.

Because of its forthright editorials.

Because going on 91 years young, it vigorously and forcefully advocates all policies important to the welfare of the Services and with equal vigor and force opposes those harmful to them.

To insure prompt delivery of this exceptional CHRISTMAS GIFT simply clip and mail the attached coupon immediately:

ARMY NAVY AIR FORCE JOURNAL

1711 Connecticut Avenue, N. W., Washington 9, D. C.

I enclose coupon with my check for one year's subscription to the ARMY NAVY AIR FORCE JOURNAL, to be sent with a Christmas card to:

Name of recipient:

Address

Inform the above that the subscription is a gift from:

Name of Donor:

Address

Make check or money order payable to Army and Navy Journal, Inc. Subscription rates—\$8.50 a year to civilians or organizations; \$6.50 to individual members of the Services.

12-11

Notes from Posts, Stations, and Bases

KELLY WIVES SPEAK ON "NOTABLE MEN"

■ **KELLY AFB, TEX.** "Notable Military Men" was the subject selected by the Toastmistress' Club for their brunch 7 Dec. Speakers were Mesdames Robert Bevis, O. C. Roberts, W. E. Ross, and Dwight Ferguson.

Mrs. D. P. Shadrach was topic-mistress, and Mrs. Jack Wolfe was toastmistress. The invocation was given by Mrs. John R. Frazier. Mrs. Henry Duhan was lexicologist, and evaluators were Mesdames R. L. Alexander, Frank Dunkelberg, H. S. Wade, and Andrew Waggoner. Mrs. J. N. Paxton was general evaluator.

Fete Patients

■ **EGLIN AFB, FLA.** Music, steaming coffee and thickly frosted cupcakes compose the combination fare any Tuesday morning at the Red Cross Building of the 3201st Air Base Hospital, for ambulatory and wheelchair patients. The coffees are sponsored by the Officers' Wives' Club, under the direction of the welfare committee and through the American Red Cross, and by the Eglin NCO Wives' Club. Approximately 150 patients consume 324 cupcakes, five pounds of coffee, five pounds of sugar and four cans of cream. Several local musicians have volunteered time and talent for these occasions, but the usual combo is a four-man outfit from the 584th Air Force Band.

Lt. Col. Newman Leaves Lehigh

■ **BETHLEHEM, PA.** Lt. Col. Ralph A. Newman, USAF, who has served for the past four years as Professor of Air Science at Lehigh University, has been assigned to the Office of the Secretary of the Air Staff, the Pentagon.

While at Lehigh, Colonel Newman was instrumental in getting the AFOTC Course to be recognized on Departmental Level with other Departments of Education. During his

tenure of duty there, approximately 275 AFOTC Cadets were commissioned second lieutenants and are now serving with the USAF on active duty.

He will be succeeded by Col. Earl J. Berryhill, USAF, former Base Commander at the U. S. Military Port of Manila in the Philippines.

Make Xmas Ornaments

■ **FT. McPHERSON, GA.** All sorts of practical household standbys are being converted into unique holiday decorations by wives of the Ft. McPherson Woman's Club. Miniature Christmas trees fashioned of tin cans and costume jewelry are the festive handiwork initiated by Mrs. H. R. Sydenham of the Arts and Crafts Committee. Mrs. Sydenham says that the equipment being used to make these trees is readily available at home, such as tin cans, can openers, heavy shears, gloves, glue, and costume jewelry; unstrung pearls and beads make colorful Christmas balls. Using shears, Mrs. Ronald Martin makes her tree by taking the rims off and cutting the can down one side opposite the seam. She flattens the can and cuts it into a cone, or Christmas tree design, then cuts the cone into slender strips, which curl slightly, leaving the seam down the middle as a stem.

Mr. Smith Opposes Field Marshal

(Continued from Page 444)

17. Montgomery made the clear point that the time has not yet come when navies will not require their own air forces. He appears to think this time will come in the not-too-distant future, when guided and ballistic missiles take over many of the missions assigned to the airplane today. But he also makes the basic statement that "I do not see the aeroplane disappearing altogether." He appears not to realize that as long as the airplane remains useful at all, the advantages of operating aircraft from mobile sea bases will still continue, and that as missiles supersede aircraft, missiles too can be operated with profit from sea bases. We fully recognize that there is no weapons system in our arsenal which is not subject to obsolescence. Montgomery himself notes the increasing undesirability of air forces tied to 10,000-foot runways. However, so long as aircraft remain in the future weapons picture, so does the aircraft carrier, although displaced by missile ships for some functions.

Acknowledges Dominance of Air Power

18. Montgomery closes by a plea to recognize that air power is here to stay. That recognition has been given this in the United States for years. A quick look at the trend of our defense appropriations over the past few years makes it clear that the decision to acknowledge the dominance of air power was made some time ago. There is an optimum rate of expansion, however. In history there probably never has been an activity which was given such enormous responsibility in such a short time. The personnel of our air forces and of those of our allies must be given great credit for completing the job to date and continuing to tackle the expansion yet to come. The flow of new weapons, largely airborne, into the American arsenal is a tremendously impressive accomplishment of military planning and industrial achievement. Its rate of progress has not been the result of any lack of decision to give the highest priority to air power, but is influenced by normal problems of research, development and production of the weapons and more important the training of the personnel to use them.

19. Possibly the answer does not lie in moving air power from double A to triple A priority. Maybe we should take some weapons off the priority list entirely.

cers' Wives' Club. Adding to the holiday entertainment was the music of the Fitzsimons Carolers directed by Maj. Jack Houser. Hostesses for the meeting were Mesdames Edwin Goyette, chairman; Frederick F. Carriker; Leo V. Crowley, and Samuel McClatchie.

Shifts at Third Army

■ **FT. McPHERSON, GA.** Four changes in officer assignments have been made in the Post Executive Office and the S-4 (Supply) Section.

Lt. Col. William T. Brogan, USA, Executive Officer since July 1953, has reported to the 47th Infantry Division at Ft. Benning, Ga.

Colonel Brogan will be replaced by Lt. Col. Charles E. Anderson, Jr., USA, former Post S-4 Officer.

New S-4 is Lt. Col. Leslie W. McMahon, USA, who recently returned from duty in Stuttgart, Germany. Also assigned to the S-4 Section was Maj. Francis J. Reilly, recently stationed at Camp Zama, Japan.

Wives "Tour" Mexico

■ **FT. SAM HOUSTON, TEX.** The wives of officers representing 15 of our Allies, now attending classes at Brooke Army Medical Center, were honor guests at a recent luncheon given by the Brooke AMC Women's Club.

President of the newly organized Club, Mrs. Edwin S. Wallace, greeted the guests. In connection with the Club's theme for the year, "Let's Get Acquainted," a tour through Mexico was the subject of the program. A film, "Viva Mexico," presented by an airlines representative, and Mexican dances performed by Pvt. John Short of the Medical Training Center, BAMC, were highlights of the program arranged by the program chairman, Mrs. Joseph Fletcher, Mexican decorations and a typical "south of the Border" menu completed the Latin-American motif.

Hostesses for the luncheon were the wives of officers of the Medical Training Center, who worked with the permanent hostess chairman, Mrs. Sidney Brockman. Chairman of the committee was Mrs. Homer Andersen, and working with her were Mesdames A. G. Widdifield, Elmer Johnson, F. S. Novaky, George Randolph, J. W. Barten and E. M. Bailey.

Opportunity for Retired Army Medical Officer. Position of Health Officer, Clarksville, Tennessee and Montgomery County, home of Fort Campbell, Kentucky-Tennessee. Good location, good facilities, salary open. Write Judge W. D. Hudson.

MANUFACTURERS REPRESENTATIVE

Manufacturer of steel, aluminum and rubber products desires representatives who have the type of contacts and experience through which there can be developed a substantial volume of business for items that can be produced or assembled on the West Coast. Box 231, The Journal.

INDUSTRY * FINANCE

Trade Groups Critical Of Proposed Regulations

A summary of the comments of trade groups to the proposed regulations (Part 4, Section III, ASPP) on the conditions for the issuance of various types of military contracts indicates that industry is far from satisfied with the draft of these new rules submitted to them for criticism.

Industry spokesmen also are critical of the Defense Instruction (22 Nov. 1954) on the profit and pattern setting in incentive-type contracts. Little opportunity was offered them to make constructive criticism of this important directive, which ties in with the new proposed regulations.

Trade groups have expressed strong protest to the wording "Neither the target profit nor the profit and profit adjustment formula shall be negotiated prior to the establishment of the firm target cost." Observers point out that this could mean a delay of up to a year and a half on large contracts without any understanding on the basic profit rate and the profit and price adjustment formula.

Another important criticism is of the plan to retain a ceiling for "upward" price redetermination and no floor for "downward" adjustment in price redetermination contracts.

Nearly all trade groups have protested the reference to "close" pricing in a number of paragraphs. This encourages the contracting officers to drive a hard bargain.

Almost without exception industry has protested the limitations of "ten per centum" on CPFF contracts and "seven per centum" on supply contracts, although provision is made for service secretaries to raise these percentages when considered advisable. Suggestions from industry vary from 12 to 15 per cent on CPFF contracts and from 9 to 10 per cent on supply contracts.

It is expected the Pentagon will take at least two months to review the suggestions of industry before these new regulations are incorporated in Armed Services Procurement Regulations.

New Pentagon Directive Tells Price Revisions

The recent publication of the directive signed by Assistant Secretary of Defense T. P. Pike, Supply and Logistics, on contract price revision negotiations points up the importance to industry of the new contractual policies and cost allowance regulations now being considered in the Pentagon.

This new order, dated 23 Nov. 1954, instructs contracting officers to "rely on educated judgment and not on mechanical rules and mathematical contracts. It also urges that negotiations be conducted promptly."

In another paragraph, it cancels an old Munitions Board memo suggesting that the contract cost principles as set forth in Section XV, ASPP, be used as a working guide only for price redetermination contracts. The old memo stands for incentive-type contracts.

Industry, procurement officials, and Service auditing personnel are in wide disagreement as to the applicability of the new proposed cost allowance rules to CPFF contracts only or to all types.

Submarine Expert Given New GD Duties

O. Pomeroy Robinson, jr., a senior vice president and a member of the board of General Dynamics Corporation, has assumed new duties in the corporation's atomic energy work and in its international operations.

Mr. Robinson is a veteran with General Dynamics and had been at the Electric Boat Division since 1915. During WW II he was general manager of the division when Electric Boat built and launched 82 submarines for which Robinson was decorated by the President of the United States.

Plans For Production Facilities Need SecDef OK

In an obvious effort to make use of existing facilities, Secretary Wilson has issued a new directive (#4175.2, 24 Nov. '54) on defense production facilities. Effective 24 Jan. 1955 Departmental Secretaries will submit to Mr. Wilson for approval all plans for the "acquisition, construction, rehabilitation or major repairs of industrial production facilities" in their Service that require an expenditure of over \$1,000,000.

In a policy statement Mr. Wilson calls for "full consideration be given to the utilization of existing facilities of the Military Department and other Federal agencies." All new projects must comply with the new dispersal standards.

Any request for approval must contain (a) complete description and justification, (b) estimated total cost, (c) total production requirements, and (d) available capacity.

Any plan for rehabilitation or major repairs in a private plant must have provision to protect the federal investment as a future mobilization reserve capacity.

One-Man Rotocycles Slated For USMC Use

The Navy has let research and development contracts amounting to \$400,000 for construction of rotocycles (one man portable helicopters).

Both the Gyrodyne Co. of America, St. James, L. I., N. Y., and Hiller Helicopters, Palo Alto, Calif., will complete flight models within a year.

The portable, lightweight, rotocycle type helicopters are slated for use by the Marine Corps. They will be used for observation, liaison, escape and evasion and for small tactical maneuvers.

Both designs selected by the Navy are for a 'cycle which can be collapsed into a small package for easy transportation, and quickly assembled.

Propulsion for both rotocycle designs is a Nelson four-cylinder opposed, two cycle air cooled gasoline engine manufactured by Barmotiv Products, Inc., San Leandro, Calif.

The Hiller 'cycle is a single two-bladed rotor with a small tail rotor, while the Gyrodyne design calls for a coaxial, contra-rotating two-bladed rotor with a fixed tail stabilizer.

The Bureau of Aeronautics considered 30 designs submitted by 18 manufacturers.

Rocket With Controllable Speed Announced By C-W

The development of the first rocket engine in the U. S. that can be throttled up and down at will was announced this week by Roy T. Hurley, Chairman and President of the Curtiss-Wright Corporation.

Mr. Hurley said that no engine details have been released including data related to its size and power.

"The fact that the nation now possesses a rocket in which fuel can be proportioned and controlled to achieve faster or slower speeds and which can be started and stopped at will, represents a significant advance in the rocket engine field," Mr. Hurley said.

In the average rocket power plant the entire supply of fuel is burned within a relatively short period of time and the achievement of distance at a fixed thrust level depends on the height from which the rocket-powered plane can coast back to earth.

The Curtiss-Wright unit was designed and built by the Corporation's Propeller Division at Caldwell Township, N. J., under U. S. Air Force contract.

Navy Buys Barger

The Navy has awarded a contract for construction of two Submarine Repair, Berthing and Messing Barges (YRBM) to the Marietta Manufacturing Company, Point Pleasant, W. Va. The price is \$486,599.90 for the two barges.

AF Orders T-37A Jet Simulator For '55 Delivery, Will Have Dual Seat

The Air Materiel Command has awarded Link Aviation, Inc., a contract to build a prototype simulator for the T-37A jet Air Force trainer.

The twin-jet Cessna T-37A, which made a successful maiden flight early in October, is an all-metal side-by-side trainer with a top speed of approximately 393 mph. Designed to teach intermediate Air Force trainees maneuvers and techniques required of jet pilots, the T-37A is a dual control low-wing monoplane with fully retractable landing gear.

Link, which will soon deliver to the Air Force a simulator for the supersonic F-102, pioneered the field of jet simulation with its C-11 trainer five years ago. The company has developed simulators for the B-47 six-jet bomber, the F-89D Scorpion and the F2H-2 Banshee.

Due for delivery to the Air Force in the latter part of 1955, the Link prototype simulator will have several features

not found in the C-11B—Link's single-jet basic instrument and flying trainer which is in extensive use by the Air Force and Navy.

Unlike the C-11B, the new simulator will have actual cockpit motion. The decision to include this feature in the T-37A simulator stemmed from the success and popularity of the cockpit motion systems incorporated in the F2H-2 and F2H-3 Banshee simulators, manufactured by Link for the Navy.

Another new feature of the simulator is that the instructor will ride in the cockpit with the pilot. On most other simulators instructors sit outside the cockpit and gauge pilot proficiency through a duplicate set of pilot instruments.

Dr. Laurence Fogarty is the T-37A simulator project engineer at Link, while Maj. Evan Morgan, USAF, of Wright Field is the Air Force project engineer.

P6M's First Flight Set For Spring, Navy Says

The first flight of the Navy's newest flying boat, the XP6M-Seamaster is slated for the Spring of 1956.

Built by the Glenn L. Martin Co., Baltimore, Md., the roll-out of the swept-wing multi-jet craft can be expected in about a month.

Assistant Secretary for Air James H. Smith, jr., said that the Navy has been interested in the production of a jet flying boat for some time. It offers an extremely mobile force, with a high degree of invulnerability because of its rapid movement, which can be supported at sea by a submarine tanker.

It also offers the advantage of being able to penetrate deep into enemy territory. In addition, he said, the craft is not as limited as land based planes. It

is capable of operating from any body of water, even in enemy territory.

The Seamaster will be powered by Allison J-71 engines with afterburners.

The Secretary also revealed that the Navy has not made any decision to purchase a large number of Sea-Darts. He added that the Navy "is very much interested in the concept."

AF Academy Bids

Plans and specifications for the initial construction of the U. S. Air Force Academy will be available for bidding in the spring and summer of 1955.

Contractors selected to perform the work will be responsible for furnishing all labor, materials and supplies for construction of the Academy, which will be located near Colorado Springs, Colo.

You'll get special attention from Journal advertisers—they cater to Service personnel.

U. S. COAST GUARD

Secretary of The Treasury—George M. Humphrey
Commandant—Vice Adm. Alfred C. Richmond

President Eisenhower has appointed three enlisted men to the temporary rank of Warrant Officer, W-1 (Boatswains) with dates of rank from 17 November. They are: Kenneth N. Black, James L. Cropper and Newton P. Cadell, jr.

Retirement Report

Coast Guard Headquarters has announced that the following officers have been placed on the retired list because of physical disability:

Cdr. Samuel D. Laroue (60% Perm.); LCdr. Linnie Thompson (30% Perm.); Lts. Lindsey L. High (60% Perm.) and John B. Hill (100% Temp.); Lt. (jg) Harry E. Duddle (100% Temp.); and WO Leon W. Mobley.

Capt. John Trebes, jr., and LCdr. Leonard M. Dalton were retired after 30 years service.

Cdr. Alton E. Borden was retired after 20 years service, 10 of which were served in enlisted grade.

Operations

Walnut—reports that satisfactory underwater acceptance trials have been completed.

Half Moon — completed three weeks underwater refresher training at Narragansett Bay and returned to her regular station and duties at New York.

Recreational Equipment

The Commandant (PS) has morale and recreation equipment available at no cost to unit allotments.

Requests from District Commanders and Headquarters Units will be accepted until 15 December, at which time they will be screened and the equipment allocated to selected units.

Each organization may request one wonder trap (Clay Pigeon), N-1 condition and two 17-inch screen television sets, O-2 condition.

Cortez, Walter V., CGBASE, Woods Hole, Mass., to CGBASE, Boston, Mass. (TEM made perm).

Ray, David F., RCA Institutes, Inc., to CGBASE, South Portland, Me. (Engr).

Retired Pay May Fall Farther Behind In New Plan Being Devised At Pentagon

THE fear is growing among retired military personnel of the Armed Forces and those nearing retirement that the forthcoming military pay raise request will again provide reduced benefits for those on the retired lists.

They point out that the last pay increase, in 1952, originally was proposed as a 10 per cent across-the-board proposition. But as a result of Senate action, the final compromise provided a 4 per cent increase in base pay and a 14 per cent boost in allowances.

Since retired pay is based exclusively on base pay, the increase for retired persons was 4 per cent, instead of 10 per

cent.

Now, it is reported that the new pay increase request is being designed essentially to stimulate retention in active service of career personnel. Defense Secretary Charles E. Wilson has said that the over-all average increase may be 3-5 per cent, although he said this was not a firm figure.

It can be expected that spokesmen for retired military personnel, most notably the Retired Officers Association, will make a strong plea at the Capitol Hill next year for a larger increase in retired pay than is slated to be asked by the Defense Department.

CWO Winn Winds Up 31 Year Service At Mitchel

CWO Henry M. Winn, USAF, 52, has received final discharge from the Air Force after 31 years service. He had been assistant adjutant for the First Air Force headquarters since 1951.

Mr. and Mrs. Winn expect to make their home in the East Bay area near Oakland, Calif., where he was once stationed.

You'll get special attention from Journal advertisers—they cater to Service personnel.

Gen. Flood, USAF-Ret., Heads Carabao, Capt. Chesney, USNR, Grand Lead Wheel

Brig. Gen. William J. Flood, USAF-Ret., has been elected Grand Paramount Carabao (National Commander) of the Military Order of the Carabao, Vice Admiral Leland P. Lovette, USN-Ret., information director, has announced.

General Flood, who succeeds Col. George F. Siler, USA-Ret., retired in March 1947 after a 30-year career as a military airman.

He was commanding officer at Wheeler Field on 7 Dec. 1941 when the Japanese attacked Pearl Harbor. Subsequently, he served as chief of staff of the 7th Air Force and saw service at Canton Island, Funi Futi, Tarawa, Kwajalein, Saipan and Iwo Jima in the Pacific.

General Flood makes his home in Washington at 3512 Massachusetts Ave., NW.

Other officers elected to serve the order in 1955 and make plans for the annual "Wallow" at the Hotel Statler next 19 Feb. are:

Capt. Earle D. Chesney, USNR, Grand Lead and Wheel Carabao; Cdr. Joseph A. Carey, USN-Ret., Consejero General; Capt. Walter Karig, USN-Ret., Director of la Fiesta; Col. William F. H. Santelmann, USMC, Associate Director de la Fiesta; CWO Albert Schoepper, USMC, Director de Musica.

Gen. Ehrgott JCA Deputy

Brig. Gen. Herbert W. Ehrgott, USAF, has been appointed Deputy Director of the Joint Construction Agency in Paris. He had been Deputy to the Assistant Chief of Staff, Installations, at USAF Headquarters in Washington.

He is a 1926 graduate of the U. S. Military Academy, and holds a Bachelor of Science degree in mechanical engineering from the Massachusetts Institute of Technology. He studied river and harbor engineering at the Ecole des Ponts et Chaussées in Paris under a fellowship of the Institute of International Education.

Other officers and their Service Affiliations are:

Col. Richard D. LaGarde, USA, Grand Patriarch of the Herd; Col. Jean W. Moreau, USMC, Bell Carabao; Maj. Gen. Verne D. Mudge, USA, Assistant Bell Carabao; Brig. Gen. Merritt B. Curtis, USMC, Grand Jefe de las Amigas; VADM. Leland P. Lovette, USN, Grand Councilor of the Herd; VADM. Francis W. Rockwell, USN, Grand Jefe de los Benos; Col. Frank Halford, USMC, Grand Jefe de las Bebidos.

Col. Clinton J. Harrold, USA, Grand Jefe los Cargadores; Col. T. J. van Gestel, USAF, Assistant Grand Jefe los Cargadores; RADM. William B. Young, USN, Main Guard; Maj. Gen. Arthur G. Trudeau, USA, Winder of the Horn; Brig. Gen. Martin F. Scanlon, USAF, Assistant Winder of the Horn; Maj. Robert P. Leonard, USMCR, Caretonero; Brig. Gen. Robert H. Dunlop, USA, Gambolling Carabao; Col. John J. Reddy, USA, Veterinero.

Capt. Lucius C. Dunn, USN, Jefe Vaquero; Capt. William J. G. Davis, AUS, Lead and Swing Carabao; Capt. Earle D. Chesney, USNR, Director de la Banquete; Lt. Col. Thomas G. Carney, AUS, Assistant Director de la Banquete; Col. Elmer J. Smith, USAR, Director de la Prensa; VADM. Leland P. Lovette, USN, Director de la Informacion; Lt. Cdr. John G. Norris, USNR, Assistant Director de la Informacion; Capt. Louis P. Ade, AUS, Assistant Director de la Informacion; Col. John K. Borneman, USA, Grande Padre de los Carabao.

President Backs Pay Raise For Services

(Continued from First Page)

pendents should be provided. He spoke also of the need for decent housing and said military personnel should not be moved every other day, preventing the establishment of a home life.

The President spoke of diminished leave benefits as a result of the frequent shifts from station to station.

He emphasized the need for improved survivor benefits for widows and dependents and indicated concern over the present discrepancy in benefits for dependents of Regulars as compared to Reserves.

The section of the State of the Union Message covering "career attractiveness" has been in preparation for weeks.

It can be expected, particularly in view of the President's extemporaneous news conference remarks, that the Message to the Congress will:

- Recommend a modest pay increase.
- Urge use of civilian facilities to augment family medical care.
- Propose Improved Survivor Benefits (the Kaplan Report).
- Endorse more Government - built Service family housing.

There is a possibility also the President may give support in the State of the Union Message to the special change-of-station allowance now being advocated at the Pentagon. This would alleviate hardships resulting from the frequent transfers, mentioned by the President during his news conference.

ARMY TO T.V.

■ **FT. MONROE, VA.** Lt. Col. Lester H. McBride, USA, retired from the Army 30 Nov. after completing over 25 years' service.

Since January 1953 he has been stationed here in Organization and Equipment Division of the G-3 (Training) Section, Office, Chief of Army Field Forces. He has purchased a radio-TV repair shop in Poquoson, Va.

Select New Homes After Careers End

Sacketts To Anaheim

■ **FT. LEWIS, WASH.** CWO Ewart J. Sackett, USA, of the 2d Infantry Division, retired last week after 32 years' service.

Mr. Sackett did not apply for the rank of Warant Officer until 1941, at which time he scored what is believed here to be the highest mark ever recorded for the test.

CWO Sackett and his wife, Emma Louise, plan to make their home in Anaheim, Calif. Their two married daughters live in Pontiac, Michigan. Their son, Milton, is an Air Force captain stationed at March Field, Riverside, Calif.

Minckes Pick St. Louis

■ **DONALDSON AFB, S. C.** Lt. Col. Eugene C. Minckes, USAF, a member of the Deputy Material's Staff, Eighteenth Air Force, retired 30 Nov. after 28 years' service.

He will make his home in the vicinity of St. Louis, Mo., with his wife and 13-year-old son.

Panama City For Junes

■ **FT. SILL, OKLA.** Full military honors attended retirement of CWO Ralph A. June, USA, instructor in the Department of Motors and a veteran of 31 years' service.

Mrs. June and daughter Jacqueline, 15, witnessed the ceremony from the steps of McNair Hall.

The family plans to settle in Panama City, Fla.

Retire At Bliss

■ **FT. BLISS, TEX.** Three officers and an enlisted man were honored at a retirement review on Noel Field, 30 Nov. They were: Lt. Col. Theodore W. Hoyer of Ft. Bliss, Maj. Felle W. Clark of William Beaumont Army Hospital, and CWO William Etingoff and M/Sgt. Hazelett V. Villa, both of Ft. Bliss.

End Service at Carson

■ **FT. CARSON, COLO.** Retired here recently were the commander of the North Dakota Military District, Lt. Col. Carl P. Mayer; CWO Dominick Dividio of the Mountain and Cold Weather Training Command; CWO Anthony W. Manning, 973d Engineers Battalion (Construction); and CWO Samuel J. Palmer, motor office of the 68th Engineer Group.

43 Army Generals Due To Retire

(Continued from First Page)

Gen. Anthony C. McAuliffe, USA, Seventh Army Commander.

In May, General Charles L. Bolte, USA, Vice Chief of Staff, and General John E. Hull, USA, Far East Commander, also will be retired for attainment of age 60 and completion of at least 35 years' service and 5 years in permanent grade.

The Secretary of the Army has authority to continue on active duty up to five officers in three and four-star rank who have passed the 35-and-5 and age 60 limits. Lt. Gen. John W. O'Daniel, USA, is one of these.

Also, it is possible that promotions will affect scheduled retirements.

However, on the basis of present information, in addition to the three four-star officers, other 1955 retirements will include Lt. Gen. Alexander R. Bolling, USA, Third Army Commander, who is scheduled to retire in August, 11 major generals, and 28 brigadier generals.

Subject to change, here are the other likely retirements under mandatory provisions for 1955:

MAJOR GENERAL

W. C. Chase—March	A. S. Newman—July
I. K. Evans—July	G. J. Nold—Oct.
R. L. Howze—July	A. C. Smith—Oct.
C. E. Loucks—June	W. C. Smith—July
W. F. Marquat—Oct.	J. I. Martin—Dec.
J. V. Matejka—Nov.	

BRIGADIER GENERAL

E. E. Alling—April	E. W. Heathcote—
C. S. Babcock—July	March
E. A. Barlow—July	E. V. Holmes—July
J. F. Bird—July	E. L. Johnson—July
C. F. Burbach—July	E. B. Kearns, jr.—
R. E. Chambers—May	July
C. F. Craig—Oct.	G. P. Lynch—July
H. W. Crandall—July	B. F. Modisett—Nov.
M. G. Crombez—July	U. Niblo—Oct.
M. M. Dawson—July	W. H. Nutter—July
D. Dunford—July	W. W. O'Connor—
R. T. Finn—July	Oct.
G. E. Galloway—July	P. M. Seleen—July
J. Glone—Nov.	D. H. Tulley—July
E. P. Hardenberg—	H. R. Westphalinger
Oct.	—July
	W. H. Wood—July

General Ridgway will be 60 in March. At that time, he will have over 35 years' service and 5 years in grade.

There is widespread belief, however, that he will be continued on active duty as Chief of Staff beyond that date.

In August, General Ridgway and the other members of the Joint Chiefs of Staff will have completed two years in their jobs.

President Eisenhower must decide by that time whether to extend some or all of the Service Chiefs.

If a new Army Chief of Staff is named, General Ridgway could be kept on active duty under the authority provided the Secretary of the Army.

CWO Hoyt Replaces Top Bandsman At Lackland

CWO Harold M. Hoyt, USAF, former director of the 503d AF Band at Edwards AFB, Calif., is the new director of the Air Force Band of the West, Lackland AFB, Tex.

He replaced Bandmaster CWO Carmine Luce, USAF, who is retiring.

While serving as director of the band at Edwards AFB, Mr. Hoyt was in charge of recruiting future Air Force bandsmen in the Los Angeles area, was band supervisor for the entire Air Research Command, and was project officer for the combined Air Force bands that participated in the Rose Bowl parades of 1952 and 1953. In addition he also served as judge for the American Legion band and bugle corps contest.

Col. Estill Ends Career

■ **PALM BEACH AFB, FLA.** After 25 years' service, Col. Robert R. Estill retired from the Medical Service here on 30 Nov. He had been Wing Surgeon and Hospital Commander.

Colonel Estill is married to the former Miss Mary E. Harajian. They have one son, Robert S. Estill. The Estills reside at 310 Lakewood Road, West Palm Beach, where they plan to remain for a short time.

Gen. Richardson, Guided Missile Expert, Named To New RCA Defense Position

Maj. Gen. William L. Richardson, USAF-Ret., has been named to the newly created post of Manager, Defense Projects Coordination, Engineering Products Division, Radio Corporation of America. This was announced by Mr. Theodore A. Smith, Vice-President and General Manager of the Division.

General Richardson will be responsible for overall coordination of the Division's broad military programs and for policy planning affecting Government-business operations.

General Richardson retired in July 1954. He had served as Commander, Air Force Missile Test Center, Patrick AFB, Florida, from 1950.

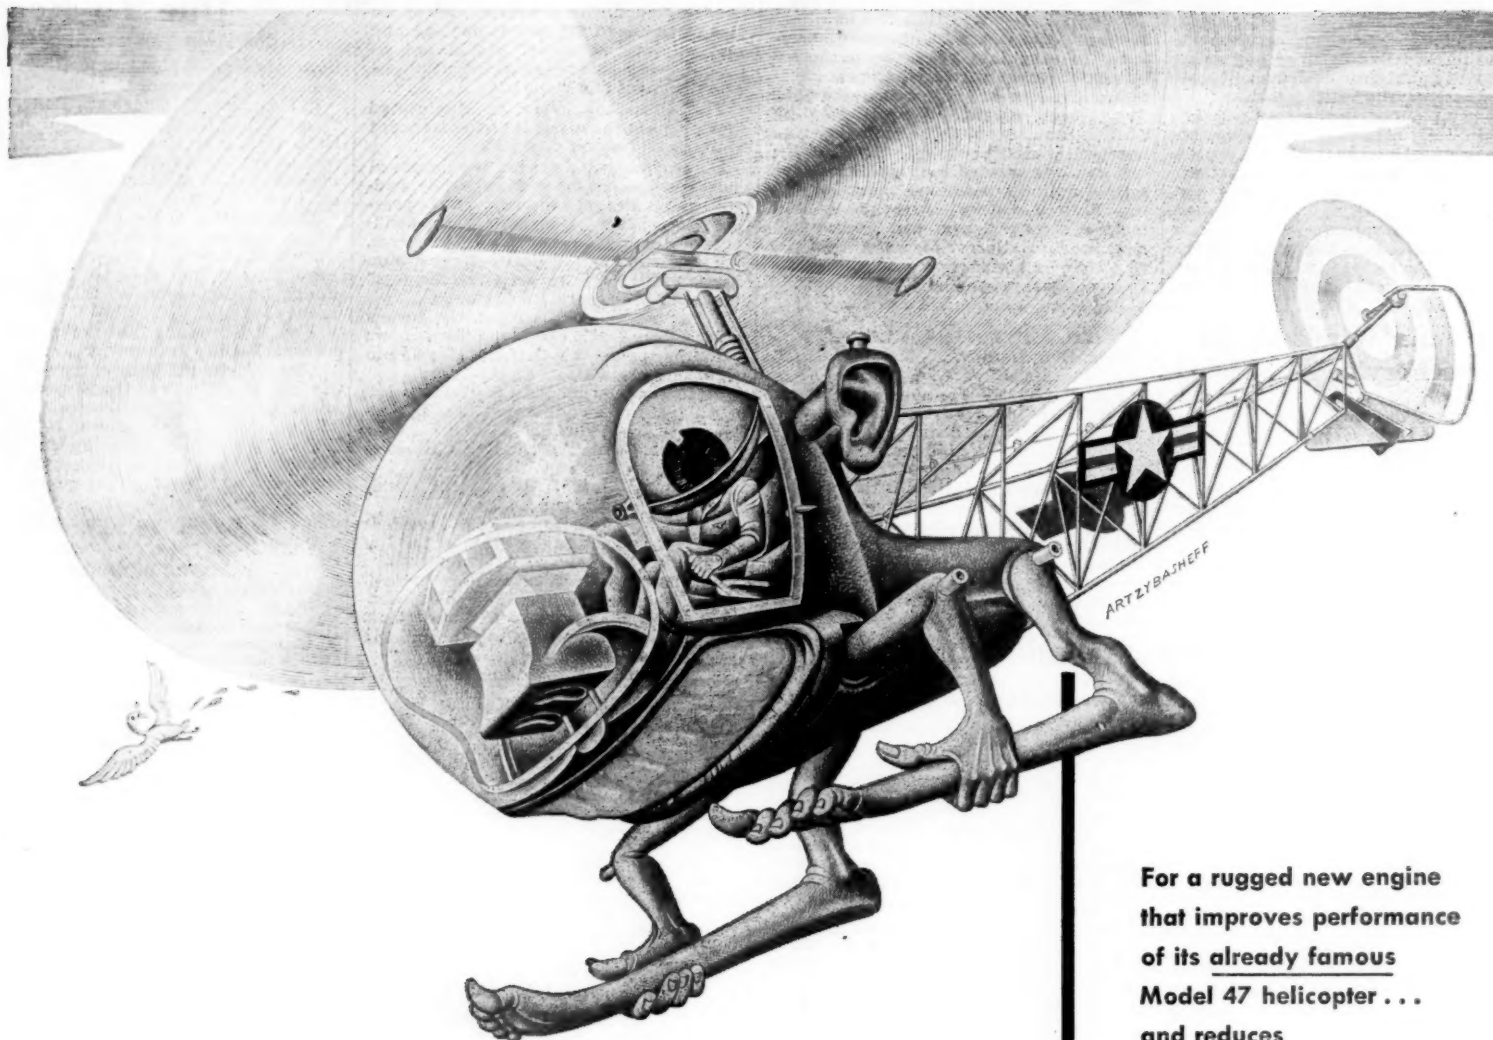

From 1946 to 1950, he was assistant for guided missiles to the Deputy Chief of Staff, Operations, USAF Headquarters, Washington, D. C.

Gen. Smith Is Director

Also announced by R.C.A. was election of General Walter Bedell Smith, USA-Ret., as a member of the Board of Directors.

He was graduated from the U. S. Military Academy in 1924.

General Smith is Vice-Chairman of the Board of Directors of the American Machine & Foundry Company. He served as Under Secretary of State from February 1953 to October 1954.

New "vitals" for this Korean air vet

This battle-proven hero of 18,000 front-line rescues over Korea is now *outperforming itself*—newly powered by Lycoming's 250-h.p. O-435 engine.

With this superior power plant, both the Model 47 and its sister ship—the 4-Place Utility 47G-1—will fly faster and higher in all weather . . . and require far less maintenance.

Such performance improvement is but one of many Lycoming contributions to air-cooled power.

Can you use superior air-cooled power . . . or any other of the diversified services listed with our signature?
Whatever your problem . . . look to Lycoming!

*Material officers
please note.*

ENGINEERS WANTED:

Long-term U.S. Air Force development contracts for gas-turbine power plants provide unlimited opportunities for top-flight experienced engineers, openings, too, in radial engine development for stream-lined, and assistant project engineers. Write Vice-President, Industrial Relations, Stratford, Connecticut.

FOR RESEARCH • FOR PRECISION PRODUCTION
